College of Nursing

Undergraduate Nursing Student Handbook
2010-2011
Statement of Non-discrimination

It is the policy of the University of North Dakota that there shall be no discrimination against persons because of race, religion, age, color, sex, disability, sexual orientation, national origin, marital status, veteran's status or political belief or affiliation, and that equal opportunity and access to facilities shall be available to all. This policy is particularly applicable in the admission of students in all colleges, and in their academic pursuits. It also is applicable in University-owned or University-approved housing, food services, extracurricular activities, and all other student services. It is a guiding policy in the employment of students either by the University or by non-University employers through the University and in the employment of faculty and staff.

Accreditation

The Bachelor of Science Program in Nursing is accredited by the Commission on Collegiate Nursing Education (CCNE).

You are responsible for the contents of this Handbook

The College of Nursing Learning Resource Center (LRC) maintains a paper copy of the CON Policy and Procedure Manual in the Reference section. Policies and Procedures are revised/updated during the academic year and posted annually.

INTRODUCTION

Welcome to the University of North Dakota College of Nursing. The Administration, Faculty, and Staff in the College of Nursing (CON) are here to assist you.

The following is a brief overview of the “layout” of the CON Building to help you find your way around. The CON has 3 floors.

1st FLOOR: Computer Labs
- Clinical Resource and Simulation Center (CRSC) (also known as “The Lab” or “The Sim Center”), Rooms 101, 103, 103E, 105, & 107
- Student Lounge with microwave, refrigerator, and coffee pot
- Telephone; no charge for local calls
- Two large classrooms (102, 108)
- Two Offices (104, 106)
- Information Directory for Administration, Faculty, and Staff (next to elevator)
- Photocopy Machine for student use
- Scholarship Information Center
- Bulletin Boards for announcements
- Restrooms

2nd FLOOR: Classrooms
- Office Space – GTAs, Technology Support
- Restrooms
- Graduate Reading Room (204)
- Lactation Lounge - 204A (inside Graduate Reading Room)

3rd FLOOR: Administrative, Faculty, & Staff offices for the CON; RAIN Program and Study Rooms;
- Restrooms; Conference Rooms

Northern Plains Center for Behavioral Research (NPCBR): The NPCBR is the first research & academic building supported by the National Institutes of Health for nursing research ever in the nation. It is fully dedicated to interdisciplinary and translational research with partners across the campus and the state, and reflects the value the College places on interdisciplinary research and learning. For information on use or reservations, contact karaanderson@mail.und.nodak.edu.

You will get to know each of the faculty as you enroll in their classes or participate in various functions/committees with them within the CON. The following are some key individuals within the College of Nursing:

**Dean:** Dr. Julie Anderson (Room 369, 777-4555)

**Associate Dean of Undergraduate Studies:** Roxanne Hurley (Room 311, 777-4525)

**Associate Dean for Graduate Studies:** Dr. Darla Adams (Room 361, 777-4543)

**Chair, Department of Practice and Role Development:** Stephanie Christian (Room 323, 777-4527)

**Chair, Department of Family & Community Nursing, Director, Nursing Center:** Dr. Elizabeth Tyree (Room 319, 777-4522)

**Director of Student Affairs:** Marlys Escobar (Room 301, 777-4534)

**Administrative Assistant to the Dean:** Kathi Hjelmstad (Room 369, 777-4555)

**Admissions, Advising and Records Associate:** Teri Wright (Room 308, 777-4548)

**RN-BSN and LPN Advisor:** Marlys Escobar (Room 301, 777-4534)

**RN-MS Advisor:** Pam Henderson (Room 360, 777-4552)
Coordinator of the RAIN Program: Debra Wilson (Room 344, 777-4519)
Business Officer: Cynthia Prom (Room 362, 777-4516)
Pre-Nursing Academic Advisor: Valerie Bauer (Room 303, 777-4541)
Interim Associate Dean for Research: Dr. Cindy Anderson (NPCBR Room 340, 777-4354)
Administrative Assistant to the Associate Dean of Undergraduate Studies: Jane Beasley, Room 310, 777-4532
Department Secretary for Practice and Role Development: Tammy Batzer, (Room 354, 777-4542)
Department Secretary for Family & Community Nursing: Marsha Brossart (Room 312, 777-4556)
Third Floor Information Window: Beth Toay, Room 302

ESSENTIAL DOCUMENTS

Included in the Handbook are the College Mission Statement, Nursing Philosophy, and Baccalaureate Nursing Program Objectives; as well as some policies and information that will be useful to you during your educational experiences.

Additionally, the following documents are important for you to be familiar with and will assist you in your college career in nursing:

The Code of Student Life. Outlines the rights and responsibilities of citizens of the University community and expected levels of conduct. This is posted on the UND website.

Undergraduate Catalog. This is available at Enrollment Services in Twamley Hall, and on the UND web pages.

Schedule of Classes. This is available each semester on the UND website and from CampusConnection.

American Nurses Association Code of Ethics. This is available at the University Bookstore and Library of the Health Sciences.
NURSING MISSION AND NURSING PHILOSOPHY

College of Nursing Mission

The College of Nursing shares the mission of the University of North Dakota: serve the state, the country, and the world community through teaching, research, creative activities and service; through sponsorship and encouragement of basic and applied research, scholarship and creative endeavor, the University contributes to the public well-being; encourages students to make informed choices, to communicate effectively, to be intellectually curious and creative, to commit themselves to lifelong learning and the service of others, and to share responsibility for both their own communities and for the world.

The mission of the College of Nursing is to educate individuals for professional roles in nursing and nutrition. The College of Nursing strives to enhance the health of people in the region and the world by preparing leaders in nursing and nutrition through innovative, accessible programs, and significant faculty and student scholarship and service.

Nursing Philosophy

The hallmark of professional nursing is the art of caring with the thoughtful application of the knowledge of the discipline in accordance with recognized standards of practice. Nurses care for clients holistically, knowing that health is personal and influenced by multiple factors. Nursing history and tradition address disparities in the health of all populations and emphasize development of human potential. Nurses are committed to serving vulnerable, rural and underserved populations. Nurses collaborate with recipients of nursing care and others to prevent illness, alleviate suffering, and promote, protect and optimize the health of individuals, families, communities and populations. Nurses bring discipline, specific knowledge and values to the inter-professional healthcare team. The context of nursing is dynamic, complex and multidimensional.

Professional nursing practice is supported by a sound knowledge base. Research informs and builds our profession. Nursing education at the baccalaureate level integrates content from the arts and humanities, social and physical sciences, and requires competencies in technology, communication and information management. Coursework enhances personal and professional skills, promotes lifelong learning, clinical leadership, and evidence-based practice within a context of globalization. Education at the master’s level prepares graduates who apply knowledge of the discipline and generate theory-based research for specialized nursing practice. Education at the doctoral level enables nurse scientists to make significant original contributions to the body of knowledge.

Teaching is a process designed to facilitate learning within an academic environment that is student centered and supports various learning styles and diverse cultural perspectives. Students and faculty are active and responsible participants in the venture of learning and research. Faculty utilize innovative teaching methods to guide nursing students as they acquire the knowledge, skills, and ability to function independently in diverse settings.
AGENCY REQUIREMENTS

Upon admission to the nursing program and prior to each semester students must make sure that all agency requirements are met prior to placement. These include background checks, verification of health records, and CPR certification, drug testing, and any other mandated requirements. Due to evolving agency needs, these requirements may change with little notice.

TRANSPORTATION POLICY

A. TRANSPORTATION OF CLIENTS

Students and faculty in the College of Nursing (CON) shall not transport clients in personal or state fleet vehicles. Neither the University of North Dakota (UND) nor the CON provides liability coverage involving the transportation of clients in violation of this policy, nor does UND/CON assume any responsibility for such transportation.

B. TRANSPORTATION OF STUDENTS

1) Clinical Experiences
   Students are responsible for their own transportation related to their clinical experience.

2) Student Trips
   Students may drive and transport other students in UND vehicles if: they have a valid driver’s license; the trip is approved by the faculty advisor or department head; the trip is scheduled with the Transportation Department; the appropriate trip forms from the safety office have been completed; and any necessary driver’s training has been taken.

C. AIR/GROUND PATIENT TRANSPORT

Students are not required to go on air/ground patient transports in any clinical course. If a student has the opportunity to go on a transport and wishes to do so, they go at their own risk. Neither UND nor the CON provides liability coverage in the event of injuries as a result of accident. The release for Air/Ground Patient Transport form must be signed and placed in the student academic file prior to participation in any air/ground patient transport experience. The release for Air/Ground Transportation must be completed when enrolling in the first semester of the nursing program and must be in the student’s file before the student may participate in a transport situation.
A. Applicability

This policy applies to all UND undergraduate nursing students.

B. Policy

Applicants must submit to and satisfactorily complete the approved UND College of Nursing background check as a condition of admission. An offer of admission is contingent upon the successful completion of the background check(s) with results deemed favorable. Admission may be denied or rescinded based on the outcome of the background check.

Students who are currently enrolled must submit to and satisfactorily complete an annual background check as a condition of continuing enrollment in the College of Nursing. Students may need to complete additional background checks if required by an agency prior to participation in a clinical experience. Students who refuse to submit to the background check or do not pass the background check as defined by the College will be dismissed from the program.

C. Rationale

I. Health care providers are entrusted with the health, safety and welfare of clients, have access to controlled substances and confidential information, and operate in settings that require the exercise of good judgment and ethical behavior. Thus, an assessment of a student or applicant’s suitability to function in such a setting is imperative to promote the highest level of integrity in health care services.

II. Clinical facilities are increasingly required by accreditation agencies, such as Joint Commission of Healthcare Organization (JCAHO), to conduct background checks for security purposes on individuals who provide services within the facility and especially those who supervise care and render treatment. To facilitate this requirement, educational institutions have agreed to require these background checks for students and faculty.

III. Clinical experiences are an essential element in certain professional programs. Students who cannot participate in clinical experiences due to criminal or other adverse activities that are revealed in a background check are unable to fulfill the requirements of the program. Additionally, many healthcare licensing agencies require individuals to pass a criminal background check as a condition of licensure or employment. Therefore, it is in everyone’s interest to resolve these issues prior to a commitment of resources by the College of Nursing/UND, the student or applicant.

IV. The UND College of Nursing is obligated to meet the contractual requirements contained in affiliation agreements with the various community facilities.

V. The North Dakota State Board of Higher Education requires student criminal history background checks and requires each institution to adopt policy and procedures for implementation for admission decisions.
D. Background Check Report

I. Obtaining a Background Check Report. The College of Nursing will designate an approved vendor to conduct the background checks and issue reports directly to the College. Results from a vendor other than that designated will not be accepted. Students must complete the background check through the approved UND vendor in order to assure consistency of collected data. The student is responsible for payment of any fees incurred in obtaining the required background check. If a clinical agency requires an additional background check, students are responsible for any cost involved.

II. Scope. Background checks will include such things as the following: Social Security Report (address locator)

- County Criminal Record History (unlimited jurisdictions – misdemeanors, felonies, and pending charges)
- National Sex Offender Public Registry Search
- National Criminal Database Search, includes but not limited to:
  - Multiple AOC/DOC/DPS criminal data sources
  - Federal Bureau of Investigation Terrorist List
  - Federal/State/Local Wanted Fugitive Lists
  - Sexual/Violent Offender Registries
- FACIS® Level 1 includes, but not limited to:
  - (OIG) Office of Inspector General List of Excluded Individuals
  - (GSA) General Services Admin. Excluded Parties Listing
  - (OFAC) Office of Foreign Assets Control SDN Search
  - (ORA/FDA) Office of Regulatory Affairs/Food & Drug Administration Debarment List
  - (ORI) Office of Research Integrity Administration Action List

III. Rights. Students and applicants have the right to review the information reported by the designated vendor for accuracy and completeness and to request that the designated vendor verify that the background information provided is correct. Prior to making a final determination that will adversely affect the applicant or student; the College of Nursing will inform them of their rights and how to contact the designated company to challenge the accuracy of the report. The process and timeline are delineated in Procedure 207a.
Procedure: Background Checks for Undergraduate Applicants and Students of College of Nursing

A. Undergraduate Program Applicants/Students

I. Applicants who receive a letter offering admission will be notified that admission is contingent upon the successful completion of a criminal background check. The letter offering admission will specify a date by which the background check must be submitted and results deemed favorable in order to secure an admission spot.

II. If the report contains findings of concern, the Associate Dean of Undergraduate Studies, Director of Student Affairs, and Chair of Undergraduate Student Concerns Committee (hereafter referred to as the Criminal Background Reviewing Committee or CBRC) may request that the applicant submit additional information relating to the finding, such as a written explanation, court documents and police reports. The student will have 10 working days in which to provide this information. The CRBC will review all information available and determine whether the offer of admission should be withdrawn. Decisions made by the CRBC related to the criminal background review of applicants are final. Should an applicant choose to appeal the CRBC’s ruling, an appeal may be made to the Dean. Time required to initiate and complete an appeal may result in loss of admission for that particular semester. If that is the case, the student may reapply for a subsequent semester pending a favorable outcome from the appeal.

III. For current students, if the reviewing committee determines that dismissal from the program is warranted, a recommendation will be made to the Dean. The student will be informed of the decision by the Dean. Should a student choose to appeal the dismissal, they must follow the CON special appeals process.

B. Committee Review Standards.

Factors a committee may consider when reviewing a background check and any other information submitted by the applicant/student include, but are not limited to:

1. the nature and seriousness of the offense or event
2. the circumstances surrounding the offense or event
3. the relationship between the duties to be performed as part of the educational program and the offense committed
4. the age of the person when the offense or event occurred
5. whether the offense or event was an isolated or repeated incident
6. the length of time that has passed since the offense or event
7. past employment and history of academic or disciplinary misconduct
8. evidence of successful rehabilitation
9. accuracy of the information provided by the applicant or student in the application materials
10. disclosure forms

The committee will take into consideration both the safety interests of the client and the workplace, as well as the educational interest of the student.
C. Confidentiality and Recordkeeping

I. Background check reports and other submitted information are confidential and may only be reviewed by university officials and affiliated clinical facilities in accordance with the Family Educational Records and Privacy Act.

II. Background check reports and other submitted information by students will be maintained in the Student Affairs records room in accordance with the university’s record retention policy for student records.

III. Applicants Denied Admission and Dismissed Students. Background check reports and other submitted information of applicants denied admission into the program will be maintained in accordance with the university’s record retention policy. Only the letter of dismissal will be kept in the academic file; supporting documents and other information will be maintained in a separate file in the Student Affairs records room.

D. Other Provisions

I. Clinical placement is a prerequisite for graduation from the nursing program. The CON makes no guarantee that the student who has a finding of concern in their background check report and is nonetheless permitted to enroll in the program will be able to be placed at a clinical facility. Further, graduation from the CON does not guarantee that the student can be registered, permitted or licensed under state law.

II. Falsification of information, including omission of relevant information, will result in denial of admission or dismissal from the educational program.

III. Criminal activity that occurs while a student is in attendance at the university may result in disciplinary action, including dismissal, and will be addressed through the College’s and University’s academic or disciplinary policies.

IV. The CON will use appropriate means to convey this information to potential applicants and students such as; inclusion in the catalog, student handbooks, admission pamphlets, advisement, and/or correspondence.
<table>
<thead>
<tr>
<th>SERVICE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nationwide Sex Offender</td>
<td>Provides records from Sex Offender Indexes from all 50 states (Sex Offender Registry)</td>
</tr>
<tr>
<td>Nationwide HealthCare Fraud &amp; Abuse Scan</td>
<td>This is a search of disciplinary actions taken by federal agencies as well as those taken by licensing and certification agencies in all 50 states. This is the most comprehensive search method available. This includes OIG, GSA and other federal sources as well as state agencies. An individual may be the subject of adverse action by more than one agency for the same or different events. - FACIS (III)</td>
</tr>
<tr>
<td>Wants &amp; Warrants (Nationwide)</td>
<td>This is a search for any open arrest warrants for an individual. This search is a great search to perform to see if anyone might currently be wanted by the police on any matter. A database of records collected from various states, counties, and law enforcement agencies revealing if a person has an outstanding warrant; however, it is not all-inclusive. Should be followed up with a county criminal record search for re-verification to confirm the information reported.</td>
</tr>
<tr>
<td>Nationwide Criminal Records Database</td>
<td>The Nationwide Database is a key supplementary search which reveals criminal records in undisclosed locations and is complimentary to county searches. It includes information from the following sources: Proprietary Offender Data, Nationwide Sex Offender Database, AppALERT (Office of Foreign Assets Control - OFAC., the FBI Terrorist List and Federal/State/Local Wanted Fugitive Lists, Traffic Court, Department of Public Safety, seven years worth of information from the Administrative Office of the Courts and the Department of Corrections. This database contains over 150 million criminal records from 44 states and D.C. The age of the information and the type of information varies from state to state. - Internal Database + National Background Data</td>
</tr>
<tr>
<td>Nationwide Federal Criminal Records</td>
<td>A federal crime is a violation of federal law or any crime committed on federal property. Federal laws govern crimes more severe in nature than those under the county of the state jurisdiction. Federal criminal records are available nationally or by state. - PACER (Public Access to Court Electronic Records)</td>
</tr>
<tr>
<td>County Criminal Searches</td>
<td>County criminal records are the most accurate and up to date records that exist. They are updated from the moment the clerk of court enters the information into the system. Certified Background maintains a network of over 12,000 court researchers that physically enter the courthouses to pull the records. County criminal records are considered to be the ideal method of attaining accurate and thorough criminal background information. County criminal searches take approximately 24 – 72 hours to complete.</td>
</tr>
<tr>
<td>Statewide Criminal Searches</td>
<td>A statewide criminal record investigation accesses a state maintained repository of criminal records that typically includes records from every county courthouse in a state. Statewide searches are not available in all states. The thoroughness of statewide criminal record searches varies from state to state.</td>
</tr>
<tr>
<td>Verifications</td>
<td>In attempts to appear more qualified, applicants often falsify and embellish their resumes. In today's face paced environment, HR departments are overworked. By outsourcing verifications, employers are guaranteed that all verifications are thoroughly completed in a timely manner. Employment verifications detail former employers, dates of employment, job title and rehire eligibility. Education Verifications verify the highest level of education that the applicant completed. Reference verifications report the findings of in-depth interviews of an applicant's professional references. Professional license verifications confirms the existence of an applicant's license in a given field. Reports include the status of a professional license, the date of issuance, state of origin, complaints, suspensions, and the expiration date. - Primary Source</td>
</tr>
</tbody>
</table>
DEALING WITH A CLINICAL VARIANCE

A clinical variance may be a medication error, a client injury or a deviation from quality care to a client being cared for by a student.

Upon discovery of a clinical variance, the faculty member will initiate the reporting process. Depending upon the nature of the variance, agency forms may be required to be completed in addition to the College of Nursing Clinical Variance Report and UND Risk Management forms. Refer to 248a : Procedure for dealing with a clinical variance; 248b: CON Clinical Variance form.

Upon graduation, the student may request of the Dean that the College of Nursing Variance Report(s) be removed from their file.

HIPPA – Health Insurance Portability & Accountability Act - Student Guidelines

Upon admission students are granted access to a system where they may access information and a quiz on HIPPA laws and regulations (see below). Students will receive specific instructions in their first semester courses on how to access this site.

A new Federal law, known as "HIPAA" (the Health Insurance Portability and Accountability Act of 1996) requires health care providers to implement a comprehensive approach to protect the privacy of personal health information (PHI). There are nine parts to HIPAA, but our immediate compliance will focus on three areas:

Privacy Rule:

The Privacy Rule regulates the use and distribution of identifiable health information and gives individuals the right to determine and restrict access to their health information. Compliance with HIPAA's privacy regulations will be required beginning April 14, 2003. Substantial penalties, both civil and criminal, may be imposed for non-compliance.

Security Rule:

The HIPAA Security Rule mandates that reasonable and appropriate technical, physical, and administrative safeguards be implemented with electronic identifiable health information. We must ensure the confidentiality,
integrity, and availability of all electronic protected health information we create, receive, maintain or transmit. Compliance date for the Security Rule is October 16, 2003.

**Transactions and Codes:**

**HOW DOES HIPAA IMPACT UND and the CoN?**

HIPAA has impact on UND and the CoN in several ways. Patient/client records, human subject research records, and marketing demographics contain personal health information as identified in the HIPAA privacy regulation.

The person responsible for our HIPAA compliance is Julie Anderson, Dean of Nursing, and all compliance aspects are coordinated by the HIPAA College Compliance Officer. For additional information or assistance, contact HIPAA Compliance Office at 701-777-4147
I. ASSOCIATE OF SCIENCE PRACTICAL NURSING PROGRAMS (ASPN)

Graduates of an ASPN program with a two-year degree in practical nursing will receive nursing credits by direct transfer after evaluation by the College of Nursing.

All requirements for admission and graduation from UND and the College of Nursing must be completed.

2. Credit for vocational practical nursing coursework may be established or waived on an individual basis through evaluation by the Associate Dean for Undergraduate Studies in collaboration with the Registrar’s Office.

3. If coursework is more than 5 years old, must have 2 years work experience within the past 2 years as an LPN to have credits considered. Work experience must be validated by employers.

TRANSPORTATION POLICY #246

The University of North Dakota College of Nursing (UNDCON) does not require students to go on patient transport as part of their clinical experiences. This waiver is a release of the UND and the CON in the event that I decide to go on a patient transport.

I ____________________________ (name of student) hereby release UND and the CON from liability for any injuries I may incur as a result of my participation in an air/ground patient transport. I acknowledge that this is not a required experience and that my participation is strictly voluntary. By participating in the experience, I am fully aware of and assume all risks associated with the activity, including, but not limited to, crashes of any transport vehicle from whatever cause, and any injuries therefrom; injuries caused by the patient, the patients’ family, or members of the public during the transport or activities related to the transport; as well as injuries from any other cause incurred in association with the transport or other activities related to the transport of the patient.

I execute this document with full knowledge of the contents and consequences stated in this Release. I also understand that this Release is effective during my enrollment in nursing courses at UNDCON.

_________________________________________  ______________________________________
Student signature and Date                Witness* and Date
*Clinical faculty/Staff and Date

Copy: Student’s academic file
Students at the UND College of Nursing may receive equipment and supplies as a part of their lab experiences in the nursing program. All equipment and supplies are for educational purposes only.

1. Students will ONLY practice invasive procedures (where skin is broken or orifice is entered) while under supervision of faculty or clinical preceptors within clinical or lab settings.

2. All supplies and equipment to be used invasively may only be checked out from the Learning Resource Center (LRC) per instructor’s written consent.

3. Appropriate use of such equipment and supplies is expected.

4. All students will sign a written agreement of understanding regarding appropriate use of the equipment in any courses where use of invasive equipment is needed to cover course content.

Student Statement:

I have read and understand the above policy and understand that inappropriate use of equipment and supplies is a violation of professional standards and is subject to disciplinary action. I understand that any equipment intended for invasive procedures must be used only under faculty supervision and/or only on the LRC premises. I understand that potential harm could occur if equipment is used improperly or without supervision and that I am liable for any injury caused using this equipment. I am responsible to return any reusable equipment in good working condition.

CHEMICAL IMPAIRMENT POLICY  Policy 238

The University Of North Dakota College Of Nursing recognizes that chemical impairment is an illness and should be treated as such. This policy regarding chemical impairment is based on the American Association of Colleges of Nursing task force assumptions and principles. The general assumptions and principles used in developing this policy as follows:

1. Chemical impairment compromises both the educational process and safe patient care.
2. Chemically impaired persons need help to recognize the consequences of their substance use.
3. Addiction is a treatable illness and rehabilitative and therapeutic approaches are effective in facilitating recovery.
4. Individuals with chemical impairment should receive an opportunity for treatment in lieu of, or before, disciplinary action.

IDENTIFICATION:

Identification of impairment, possibly due to substance abuse, should be based on a pattern of quantifiable behaviors such as: poor grades, significant decline in GPA, slurred speech, motor incapacities, absenteeism or any
pattern of impairment in an individual’s ability to meet standards of performance, competency and safety in the classroom or clinical area.

REPORTING:
When a faculty member or preceptor becomes aware of suspected chemical impairment she/he will:

1. Remove student from the clinical site or classroom. (Refer to Clinical Removal Policy if indicated).
2. Confront the student immediately with observation of behavior.
3. Document the discussion, place in student medical file, and report it to the appropriate line of authority.
4. If chemical impairment is suspected, intervention is indicated.

INTERVENTION:
To insure privacy of the suspected impaired student, any intervention will be conducted in a strictly confidential manner.

1. The student will be referred to the University of North Dakota Counseling Center for an evaluation by a licensed addiction counselor at no cost to the student.
2. If chemical abuse is identified, the student will be referred to the University of North Dakota Counseling Center for their chemical abuse education program.
3. Documentation of intervention will be placed in student’s medical file.

OUTCOME(S):

1. Students unable to make appropriate professional judgments, meet clinical/course objectives or who demonstrate unsafe behaviors will be dismissed from the College of Nursing.
2. Continued progression within the curriculum is dependent upon the student meeting course objectives and academic standards as is expected of all students.

CLINICAL REMOVAL POLICY

The primary responsibility of nursing students in clinical settings is the welfare of clients. For the purposes of this policy “removal from the clinical” shall mean the immediate removal of a student from direct client contact for that clinical day only.

1. A student exhibiting behaviors in the clinical setting which are deemed by the responsible faculty member to be unprofessional or unsafe to the mental, emotional, or physical welfare of clients, staff, self, or others shall be subject to immediate removal from the clinical for that day.
2. The supervising faculty member involved must report the removal to the department chair, and together they shall make a professional decision whether the behavior of the student is such that the student should be permanently removed from patient contact in that course, and if other course faculty should be contacted.
3. The supervising faculty member will arrange a meeting within three class days to inform the student of the decision whether or not to allow the student to return to the clinical area. The meeting will include the student, supervising faculty member and clinical preceptor (if appropriate), and department chair and/or designee. Following the meeting, the supervising faculty member shall place documentation regarding the incident, the outcome, and any necessary follow-up in the student’s academic file (under clinical evaluations). If the student is allowed to continue in the clinical, the department chair shall make a professional decision if the incident and outcome should be reported to the Director of Student Affairs, the Associate Dean for Undergraduate Studies, and the Dean.

4. If a second removal from the clinical occurs, the student shall be permanently removed from patient contact in that course. Such removal shall result in immediate failure of the clinical course.

5. Within three class days after the second removal a meeting with the supervising faculty member, clinical preceptor (if appropriate) student, department chair and/or designee, and a person of the student’s choosing shall be held to review the removal decision. Following the meeting, the supervising faculty member shall place all appropriate documentation in the student’s academic file (under clinical evaluations) and the department chair shall inform the Director of Student Affairs, the Associate Dean for Undergraduate Studies, and the Dean of the removal.

6. An agency shall have the right to request of the faculty that a student be removed from the clinical agency because of performance which is deemed unprofessional or unsafe to the mental, emotional, or physical welfare of clients, staff, self, or others. The agency may remove the student from client contact and notify the clinical faculty or department chair immediately.
ATI CONTENT EXAM POLICY  POLICY #409

This policy refers to the following content ATI (Assessment Technologies Institute, LLC) assessments:
- Test of Essential Academic Skills (TEAS)
- Critical Thinking (Entrance/Exit)
- Fundamentals
- Nursing Care of Children
- Community Health Nursing
- Medical Surgical Nursing
- Mental Health
- Pharmacology
- Leadership & Management
- Maternal Newborn Nursing
- NCLEX Predictor

Overview:

1. ATI review modules and DVDs will be distributed early in the course as possible in which the content is covered. As students receive the materials, they will sign off on a signature page verifying receipt of the materials.

2. Non-proctored codes for the exams will be provided to faculty at the beginning of each semester for the tests that apply to the students in their class. Each class will be provided with a list of these codes as they progress through the curriculum for current class of enrollment and previous classes. These codes will be posted on course Blackboard sites so they are available to students at all times.

3. Faculty will reference ATI reading assignments in their course materials as the content relates to their class. When appropriate, faculty may link ATI content to course activities. Faculty will also encourage or require students to take non-proctored exams in their courses.

TEAS and Critical Thinking (Entrance/Exit):

Students will take the TEAS and Critical Thinking Entrance exam at the beginning of the program and the Critical Thinking Exit exam at the end of the program. There is not a minimum proficiency level for these exams. Results are used for individual and program assessment.

Fundamentals, Nursing Care of Children, Community Health Nursing, Medical Surgical Nursing, Mental Health Assessments:

Students will take the ATI proctored assessment exam for corresponding course content in the first half of the semester as possible. Students must meet a Proficiency Level II on each proctored ATI exam. If they do not, they must:

a. Show evidence of remediation to their instructor by taking a non-proctored exam at least once. This exam can be taken unlimited times.

b. Retake a different version of the proctored exam at the end of the course.
c. If after taking the proctored exam a second time and a Proficiency Level II is not achieved, the student will be required to enroll in a one credit N363 Test Taking Strategies course. The course will be offered primarily online. Students who do not achieve the ATI benchmark in a fall course will enroll in the N363 Test Taking Strategies course in the following spring semester; for those who do not meet the ATI benchmark in the spring semester enrollment will be in the fall semester. Enrollment in the N363 Test Taking Strategies course may be an option for the summer semester.

d. Students will re-take the proctored ATI content exam for which he/she did not achieve the benchmark in the previous semester in the N363 Test Taking Strategies course. If after two attempts the benchmark is not achieved, the student will fail the N363 Test Taking Strategies course. Grading for the N363 Test Taking Strategies course will be Pass/Fail.

e. In order to begin the progression of continued proctored ATI testing, it is the student’s responsibility to initiate a Progression Analysis meeting with the Associate Dean of Undergraduate Studies. If the student fails to initiate a Progression Analysis meeting with the Associate Dean of Undergraduate Studies, the student will be dismissed from the College of Nursing.

   I. After the Progression analysis meeting the Associate Dean of Undergraduate Studies will appoint a committee consisting of three faculty members and a student representative.

   II. The student requesting to continue testing will present, in writing, to the committee a written justification for permission to continue testing.

   III. The committee will decide if the student will be allowed to continue testing.

   IV. If the student is granted permission to continue proctored ATI testing, the student will have until the beginning of the next semester (prior to the beginning of classes) to successfully meet the ATI benchmark in the content area that required the student to enroll in N363 Test Taking Strategies. Continued testing of this content area will be at the student's own expense.

   V. If the student fails to meet the benchmark on the ATI exam before classes begin, the student will be administratively dropped from nursing courses and will be dismissed from the College of Nursing.

   VI. If the committee decides that the student is not allowed to continue testing, the student will be immediately dismissed from the program.
Pharmacology Assessment:

The Pharmacology Assessment will be given at the end of semester 4. Students must meet a Proficiency Level II. If they do not, they will retake the exam at the beginning of semester 5. If Proficiency Level II is not achieved after a retake, the student will enroll in N363 Test Taking Strategies with an emphasis on pharmacology content. If the Proficiency Level II is not achieved during the Test Taking Strategies course, the student may initiate a Progression Analysis Meeting as outlined in “e” above.

Leadership & Management, Maternal Newborn Nursing Assessments:

Students will take the ATI proctored assessment exam for corresponding course content in the first half of the course as possible. Students must meet a Proficiency Level II on each proctored ATI exam. If they do not, they must:

a. Show evidence of remediation to their instructor by taking a non-proctored exam at least once. This exam can be taken unlimited times.

b. Retake a different version of the proctored exam at the end of the course.

c. If after taking the proctored exam a second time and a Proficiency Level II is not achieved, the student will be encouraged to meet with their academic advisor to develop a study plan.

NCLEX Predictor:

The NCLEX Predictor exam will be taken at the beginning of semester 5. The benchmark for the exam will be 90% Predicted Probability of Passing the NCLEX. Following the exam, all students should create a Focused Review to indicate content weaknesses and assist in continued preparation for NCLEX.

If the benchmark score is not achieved, the Predictor exam will be retaken at mid-term. It is strongly recommended that all students complete the retake exam to foster continued NCLEX readiness.

If after two attempts at the Predictor exam the benchmark is not reached, the student will be required to remediate by purchasing and completing an NCLEX-RN Review. The student will then retake the NCLEX Predictor exam prior to the conclusion of the semester. The cost of the review tutorial and additional retakes will be the student’s responsibility.
BACCALAUREATE NURSING PROGRAM OBJECTIVES

1. Provide safe, competent, and culturally responsive nursing care for individuals, families, communities, and populations across the life span in a variety of settings.
2. Coordinate community resources across the care continuum for individuals, families, communities and populations.
3. Assume responsibility for leadership and management in health-oriented systems.
4. Advocate for health care that reflects sensitivity to diversity and a view of clients as holistic beings.
5. Implement teaching-learning processes that promote health and prevent illness and alleviate suffering of individuals, families, communities and populations.
6. Demonstrate intellectual curiosity, critical thinking, and motivation toward continued life-long learning.
7. Examine practice for evidence of a theoretical and research base. Utilize theoretical and research evidence as a basis for practice.
8. Communicate effectively, by integrating a caring, collaborative professional approach.
10. Demonstrate legal and ethical accountability for nursing decisions and actions.
11. Demonstrate attitudes, values and competencies consistent with the practice of professional nursing.

COOPERATIVE EDUCATION:  (http://www.nursing.und.edu/bsn/cooperative_ed.cfm)

1. Requirements to enroll in Nurs 397- Cooperative Education (Co-op) are as follows:
   a. Enrolled in College of Nursing
   b. Complete 24 academic semester hours of credit and have completed Nurs 371 or equivalent with a grade of C or above.
   c. Grade point average (GPA) 2.5 or higher.
   d. Completed all required immunizations (per agency contracts) and CPR must be current.
   e. Approval from Nursing Cooperative Education Coordinator.*
   f. Co-operative Education occurs only during academic sessions

2. The student may enroll in one or two credits per semester.

3. The ratio of credit hours to work is 1:8 - 20 (1 credit/8 - 20 hours work/week for 15 weeks.)

4. Grading for the course is S/U.

5. The student enrolled in the Co-op experience must have and maintain the GPA required for the College of Nursing admission and progression.

6. The Co-op course is placed in the Department of Practice & Role Development.

* Students are responsible for obtaining their own employment. The Co-op office and College of Nursing will assist in this. Co-op sites must be cleared through the College of Nursing Coordinator, as there needs to be a current contract between the agency and the College of Nursing.

For more information see website on Co-op at: http://www.nursing.und.edu/bsn/cooperative_ed.cfm.

- * These courses must be completed by Aug 15 (Spring) or Feb 1 (Fall) for application for Nursing admission.
- # These courses must be completed prior to admission and beginning nursing courses.
- Courses in bold above are used to compute core course GPA for admission.

The College of Nursing admits students to start Nursing classes each Fall & Spring semester.

Apply online @ www.nursing.und.edu/bsn during the following times: May 1 to July 1 for Spring admission or December 1 to February 1 for Fall admission.

NURSING CURRICULUM

Documentation of current CNA certification (Certified Nursing Assistant) & CPR certification are required upon admission to the Nursing Program. Effective with Fall 2008 admissions students must also submit proof of completion of a CNA course or 3 months experience as a CNA. The nursing curriculum is sequenced to build over five semesters. Careful attention should be paid to pre- and co-requisites. Each Nursing semester must be completed entirely before progressing. Non-nursing courses may be taken ahead of schedule if possible. In addition to the Nursing curriculum all students must meet university graduation requirements.

All required Nursing courses are offered each Fall & Spring.

INTRODUCTION

The objective of this policy is to ensure that a uniform grading scale for the final student evaluation in courses is used throughout the undergraduate nursing courses. Consistency in awarding grades establishes common standards of achievement, enabling students to have a relative expectation for grading in each course, and offers students and stakeholders a relative measure of the level of a student's mastery in a unit or course.

POLICY:

The grading scale for ALL undergraduate nursing courses, including nursing electives, is as follows:

- 92-100 A
- 83-91 B
- 74-82 C
- 66-73 D
- 65 F
- I incomplete

N394 INDEPENDENT STUDY GUIDELINES

1. PHILOSOPHY

A. Independent study is designed:
   a) to extend work done previously
   b) to investigate a new area or expand knowledge
   c) to be theoretical in nature with or without clinical experience
   d) to remain flexible solely for the purpose of inviting student creativity and individuality
   e) to have evaluation of a project as the primary responsibility of the supervising faculty member

2. GENERAL INFORMATION

A. Students must be admitted to the College of Nursing to enroll. Students at sophomore, junior and senior level in the College of Nursing may enroll.

B. Students planning to do independent study are to enroll in Nursing 394.

C. A total of one to ten credits may be earned in Nursing 394.

D. Students’ interest and motivation, not GPA, is the criteria for enrollment in Nursing 394.

E. Guidelines regarding College of Nursing credit allotment are to be followed.
3. REGISTRATION

A. The student must select a supervising faculty member prior to registration for the course. The student must obtain a call number from the instructor in order to register.

B. The student will submit to the supervising faculty member a proposal for study and the desired number of credits two weeks before the end of prior semester.

C. Register for Nursing 394 for S/U or grade.

4. CONDUCT OF STUDY

A. The student must submit a proposal which includes:

   a) purpose and general description
   b) specific objectives in measurable terms
   c) plans to meet objectives
   d) proposed method of evaluating achievement
   e) final proposal must be typewritten

B. Submit a mid-course progress report to the supervising faculty member or meet with faculty member.

C. Submit a summary report to the supervising faculty member indicating objectives, implementation of plan and evaluation.

5. GUIDELINES FOR FACULTY SUPERVISING STUDENTS IN INDEPENDENT STUDY

A. The supervising faculty member may assist the students in:

   a) delineating the topic
   b) formulating objectives
   c) developing a plan for implementation
   d) developing a time schedule
   e) arranging clinical experience if included in the project
   f) identifying resources of many varieties
   g) evaluating progress toward achievement of objectives
   h) arranging or supervising a clinical experience if necessary
   i) preparing of the paper and presentations

B. The supervising faculty member must:

   a) provide a copy of this policy to the student prior to enrollment
   b) evaluate the student’s performance on the stated objectives
   c) be available for periodic conferences
   d) provide a listing of students and topics to the Department Chair, and CON Admissions and Records Officer
   e) report the student’s final grade to the CON Admissions and Records Officer
   f) retain a copy of the independent study report for one year
g) submit to the Registrar’s Office a descriptive title form with grade (the form is available in records room)

RETENTION OF STUDENT EXAMINATIONS AND GRADED COURSE MATERIALS

Tests are to be kept in the instructor’s possession for the current fiscal year plus an additional year. After that period of time, tests will be shredded.

SENIOR HONORS GUIDELINES

PURPOSE:
The purpose of the Senior Honors program within the College of Nursing is consistent with what is outlined in the UND Undergraduate and Graduate Academic catalog.

The CON supports the Senior Honor system of the University of North Dakota.

Students of marked ability may pursue in their senior year a voluntary program of supervised independent study leading to the bachelor’s degree with honors in the major field of study. Interested students should refer to their advisor, the Honors Program Coordinator, and the UND undergraduate and graduate academic catalog for more information.

STYLE BOOK FOR DOCUMENTING PAPERS

The American Psychological Association (APA) Format is to be used for the College of Nursing scholarly course requirements. The most current edition of the APA text must be used.

STUDENT INFORMATION

ACADEMIC ADVISEMENT

You are strongly encouraged to see your advisor each semester. Although advising includes much more than course selection, times when it is especially important to see them are prior to admission to the program, prior to each registration period, and prior to graduation from the program. You are ultimately responsible to see that all academic requirements are complete, but advisors are here to assist you whenever possible. When possible it is helpful if you can make an appointment in advance. Your advisor assignment is available to you in Campus Connection, or you may inquire at the 3rd Floor Information Window.

ACCESS OF INFORMATION

In accord with the University Policy (Code of Student Life [http://sos.und.edu/csI/], Section 8 Student Records) and the Family Educational Rights and Privacy Act of 1974, amended 1998, the College of Nursing accepts responsibility for the confidentiality of the educational records of pre-nursing, undergraduate nursing, and nursing graduates. To carry out that responsibility, the College has adheres to the following policies:
Directory Information: (Section 8-2 of UND Code of Student Life http://sos.und.edu/csl/) 

Educational Records: (also see Section 8-3 of UND Code of Student Life http://sos.und.edu/csl/) 

Educational records housed in the College of Nursing include information directly related to the student’s academic and clinical progress including registration and course information, transcripts, clinical evaluations, notes regarding academic and clinical performance, advisor notes, copies of references, correspondence, application information, scholarship information, immunization, health insurance and certification information. No financial records or medical information is included with the exception of information provided to the College by the student.

The student’s educational record is accessible to University personnel which shall be defined as faculty, departmental chairs, advisors, and administrative personnel who have responsibilities related to a specific student. This College of Nursing policy is essential because of: (1) the sequential nature of the curriculum, (2) the legal liability of faculty for the clinical performance of students, and (3) the need to protect clients assigned to students and students providing care.

Information on all students shall be released to licensing boards, prospective employers, and scholarship agencies only upon request by the student. The Consent to Release Information form is available from the Admissions Records & Advising Associate or your faculty advisor. The above and other aspects of Section 8 of the Code of Student Life shall be observed in the College of Nursing.

ATTENDANCE POLICY STATEMENT Policy 242

Students are encouraged to attend all regularly scheduled meetings of courses for which they are registered and are responsible for meeting course objectives. Lab sessions and clinical experiences are required components of most courses. Specific attendance requirements may be found in individual course syllabi or learning packets.
Computer Hardware:
A full service computer lab is available for student use in the Nursing building. In addition to that, however, students must have access to a computer that has the following minimum configuration. Please note that it is recommended that students purchase or run a computer with the highest options available. This list is the BARE MINIMUM.

- Processor: Intel Core 2 Duo or equivalent, 2GHz or more is recommended
- RAM: 2GB or more is recommended
- Disk: 80 GB or more recommended
- CD-RW/DVD Combo Drive or DVD-RW Drive
- 17” Monitor, CRT or Flat Panel for Desktop Systems, 13” LCD for laptops
- 32 MB Dedicated Video Card
- Sound Card & Speakers
- USB Headset w/microphone is needed for certain courses
- Ethernet Card – for Broadband Access
- High-Speed Internet Access (DSL or Cable) – Wireless or Satellite only is NOT recommended
- Operating System: Windows XP, Vista or Mac OS 10.5 or higher

For distance students who have courses who use Adobe Connect or Wimba it is required that you have a web camera.

DELL and APPLE offer student discounts to the College of Nursing students. You can find bundle pricing at http://www.dell.com/und and http://store.apple.com/us-hed. Also refer to WWW sources such as ZDnet or Cnet for the most current hardware reviews and buying tips.

Computer Software: The following set of software packages is required:

- **Microsoft Office 2003 or later**: Students can purchase the Microsoft Office suite software from UND. Information can be found at: http://www.und.edu/dept/undsoftware/Personalpurchases.htm

- **Anti-Virus Software**: McAfee Anti-Virus software for Windows or Apple computers is available at no cost to all students and can be downloaded from the University website. Instructions can be found for downloading at: http://www.und.nodak.edu/dept/undhelp/downloads/software downloaded.htm

- **Email**: All students are required to use a University email account (Umail) (please refer to the following policy for more information: http://itss.und.edu/StudentEmailPolicy_Memo.html) Information on how to activate your account and access your email account can be found at: http://www.und.edu/dept/itss/email.html

- **Internet browser**: Microsoft Internet Explorer 7.0, Mozilla Firefox or Apple Safari. Note: While most Web browsers should work, students report the fewest problems with Internet Explorer or Firefox.

- **Plugins**: Other software may be required for particular courses such as Real Player, Adobe Acrobat Reader, Adobe Flash Player, Apple QuickTime, etc. Many of these free downloads are available at the companies' websites.

All software must be installed and operational one week before classes begin.

**Internet Connectivity**:
Students will need access to (high speed internet Cable or DSL) in order to connect to their UND courses.
Students should sign up with an Internet Service Provider (ISP) immediately after being accepted to the program.

**Note**: Dialup, Satellite, Wireless internet cannot be used in place of a DSL or Cable connection.

- Student, Spouse & Child: 4000-4895

NOTE: All Prices Quoted March 1, 2010

#Transportation costs vary with site selected because costs are based on actual round trip mileage x .45/mile.

(NSA) Nursing Student Association has these for sale
SUPPLEMENTAL FINANCIAL AID

Supplemental financial aid may be available for special financial needs of nursing students. A list of approximate costs for college is included as a guide when requesting additional aid.

OSHA Guidelines

Occupational Safety and Health Administration (OSHA) training is handled in the appropriate classroom/course with a presentation and short test. Faculty will provide a compliance/completion report to Beth Toay, Nursing Building Rm #302. See below for additional information.

EXPOSURE CONTROL PLANS/HAZARDOUS COMMUNICATIONS aka RIGHT TO KNOW

The University of North Dakota College of Nursing (CON) is committed to providing as safe a working environment as possible and believes that students have a right to know about health hazards associated with their work. In order for students to make knowledgeable decisions about any personal risk encountered, the Exposure Control/Safety Plans include policies and procedures which are designed to develop awareness of potentially hazardous blood borne pathogens, tuberculosis and general safety issues in the work place, and to provide a knowledge base for appropriate and safe work practices.

All students will have access to pertinent safety information through clinical experiences, course work, and in written form in the Exposure Control Plans. When safety concerns arise, students are encouraged to contact their course or clinical instructor.

The Exposure Control Plans are available in the offices of the Business Officer and Department Chairs as well as in the Clinical Resource and Simulation Center. It is important that students become familiar with the post-occupational exposure procedures in affiliating agencies as well as the CON in the event they experience an exposure to diseases or safety hazards which could be detrimental to their health during their nursing class or clinical experiences.

The student is responsible to inform his/her clinical instructor if (s)he currently has or develops either an irritation from, or sensitivity or allergy to latex or products containing latex. Insofar as possible, the LRC director at the CON is minimizing the potential for exposure to latex proteins by replacing personal protective and other equipment containing latex with latex-free, and powderless, products where feasible. Contracts with affiliating agencies contain stipulations relating to supplying appropriate personal protective equipment to students and faculty members.
BACKGROUND:
According to action taken by the University Senate in spring 1983 and by the Council of Deans, October 16, 1991, the individual colleges were given jurisdiction regarding several areas of academic requirements, in order to facilitate action related to petitions, and appeals to be used in conjunction with the matrix.

PETITIONS:
Students desiring an exception to standard policies/procedures may complete a petition. Contacting the Academic Advisor should be the first step in the petition process. A matrix is provided as a reference for this process, detailing the acceptable form and routing of individual requests. Further information regarding petitions is outlined in the CON Policies and Procedures Manual, on reserve, in the Learning Resource Center. See matrix below for the appropriate appeal source.

PROCEDURE FOR USE OF MATRIX:

The numbers on the matrix indicate the progression that a petition or appeal would take within the College. The lower numbers indicate those individuals or the committee which in turn make recommendations to the individual with the highest number. The person designated by the highest number makes the decision using the forwarded recommendations. The student begins the process by picking up a petition form at the Admissions and Records Office in Room 308 at the College of Nursing and/or discussing the process and procedure with his/her academic advisor.

The student makes an appointment with the appropriate person who is designated as #1 on the matrix and discusses the petition with that individual. This person then is to sign the petition and indicate whether or not approval is given regarding this particular petition for the individual student. *(Note: This does not mean that...)*
individual approves the right to petition. It means that she/he thinks this petition should be approved or denied. The student then progresses to the individual(s) with the next highest number(s). Once all appropriate signatures have been obtained, the petition is returned to the Admissions and Records Associate.

WHEN THE STUDENT CONCERNS COMMITTEE IS INVOLVED:

1. The petition form is given to the Admissions and Records Associate for action by the Student Concerns Committee.

2. After Student Concerns has acted on the petition, the chairperson (or designated other) takes the petition to the associate dean or dean for action.

3. After the associate dean or dean has signed the petition form, it is returned to the Admissions and Records Associate.

The Admissions and Records Associate then distributes copies to appropriate individuals, files, and/or offices. (The student is notified of the decision made by receiving a completed copy of the petition form).

A student wishing to appeal the decision may appeal to the Student Concerns Committee or Special Appeals Board as indicated on the matrix. This process is initiated by the student through discussion with the associate dean.

PHOTOCOPY REQUESTS

Students needing a copy of any academic information (this does not include verifications) from their files must submit a written request to the Admissions Records & Advising Associate, Room 308. The cost is 50¢ for the first page, 10¢ each additional page. Allow 3-5 days for pick-up.

UNDERGRADUATE STUDENT FUNCTIONAL ABILITIES RELEASE

Policy 205

College of Nursing Undergraduate students must be able to perform the functional abilities in each of the following categories: gross motor skills, fine motor skills, physical endurance, physical strength, mobility, hearing, visual, tactile, smell, reading, arithmetic competence, emotional stability, analytical thinking, critical thinking skills, interpersonal skills, and communication skills. However, it is recognized that degrees of ability vary widely among individuals. Individuals are expected to discuss questions about abilities with the Director of Student Affairs.

The policy, Functional Ability Requirements for Undergraduate Nursing Students, can be accessed on the College of Nursing web site at http://www.nursing.und.edu/bsn/admission.cfm#functional_ability. The actual list of Common Activities/Tasks Required in the Nursing Profession is available at http://www.nursing.und.edu/bsn/pdf/commonactivities.pdf. These policies are also available on request. These provide a framework for relating functional ability categories and representative activities/attributes to self/limitations and accommodations.
PLACEMENT OF OUT OF SEQUENCE STUDENTS

Upon admission, basic and advanced placement students begin the sequential curriculum. They automatically are placed in the next appropriate course each semester.

1. If the student delays continuing in the nursing curriculum (i.e., dropping of nursing courses, or Leave of Absence*) while maintaining UND enrollment, that student will need to request that the Admissions and Records Associate to have their name placed on a waiting list to take the appropriate course or courses and continue in the sequential nursing curriculum in a later semester.

2. If the student plans to withdraw from UND, that student will need to complete a College of Nursing Leave of Absence* in addition to their UND Withdrawal Report Form and will need to request that the Admissions and Records Associate place their name on a waiting list to take the appropriate course or courses and continue in the sequential nursing curriculum in a later semester. Course placement for students who have withdrawn or had Leave of Absences is on a first-come first-serve basis as space allows.

3. If more than one student needs to repeat a specific course due to failure (i.e. D or F grade), ranking of these students for the purpose of placement will be done based on overall GPA. In the event of a tie, the UND Nursing GPA will be used. Leave of Absences and withdrawals take precedence over repeaters.

4. All unresolved issues will be decided by the Dean.

*Leave of Absence for first semester nursing students are by special permission only (see Leave of Absence policy).

PROFESSIONAL APPEARANCE & EQUIPMENT REQUIREMENTS FOR STUDENTS

When nursing students start their nursing course sequence, they are required to purchase specific items for use in their nursing courses (see uniform policies for details). Nursing students’ professional appearance shall include:

Uniform: The College of Nursing uniform is hunter green scrubs, top and bottom (Cherokee Brand). Exceptions to this style may be made by the clinical instructor as long as they are in keeping with the policy of the agency in which the uniform is to be worn. The College of Nursing insignia can be purchased at the UND Bookstore, and is to be sewn on the left sleeve, three finger-widths below the acromion process. The uniform should be clean and well fitting. A lab coat may be required in some nursing courses. A lab coat can be worn in place of the uniform for collecting data when not on a scheduled clinical experience. The student must dress themselves in a professional manner. This includes appropriate coverage of the waistline and neckline.

Picture ID: The University of North Dakota College of Nursing Picture ID is purchased through the UND Passport Office and is to be worn with the uniform as required. The Picture ID must include the student’s first name and last initial followed by Student Nurse.
Sweaters: Any sweater worn over a uniform is to be all white, washable, and worn so that the student’s name pin is clearly visible (pin may be worn on sweater).

Hair: While in uniform hair must be clean and well controlled so that it does not hang in eyes, around face, or on the shoulders. Beards and mustache should be trimmed neatly. Extreme hair styles and/or colors are inappropriate for the clinical area.

Supplies: A stethoscope, sphygmomanometer, bandage scissors, and a pen light may be purchased through the Nursing Student Association at the beginning of each semester.

Shoes & Hose: Shoes are to be clean, white, polished, well supporting with clean laces; no platform or clogs. Hose shall be white or tan depending of agency policy.

Jewelry: A watch which measures seconds is considered part of the uniform. No other jewelry is to be worn, except a wedding band which may need to be removed at times. Small, plain button earrings may be worn if this accords with agency policy. Pierced jewelry in the nostril, lip, tongue, or eyebrow areas or visible other than on the earlobe is not allowed.

Grooming Personal cleanliness is essential. Moderate use of makeup is acceptable. Nails must be clean, well trimmed, smooth and fairly short; natural color nail polish may be worn if not chipped or cracked. Gum chewing or smoking is not permitted in the clinical area. Fragrance products such as perfumes, lotions, aftershave, hairspray, etc. are not allowed.

STUDENT ATTENDANCE AT WORKSHOPS Policy 243

Students may be required to attend workshop/s pertinent to the course in which they are enrolled and offered in this geographic area. Students are required to pay the registration fee and other workshop expenses. It is further recommended that a statement such as the above be included in the syllabus of courses utilizing this option.

STUDENT POLICY FOR BLOODBORNE PATHOGENS Policy 254

It is the intent of the College of Nursing (CON), University of North Dakota (UND) staff and students, to conform to the Exposure Control Plans for UND and those of affiliated agencies and clinical sites, as well as the requirements of local, state and federal laws and the Centers for Disease Control and Prevention (CDC) guidelines relating to minimizing the possibility of exposure to blood borne pathogens (BBP). Specifically, the standards of the Occupational Safety and Health Administration (OSHA) will be adhered to by staff and students of the CON.

Students may not refuse to care for those infected with blood borne pathogens without sound medical reason to do so. Students who themselves are or may become infected by one or more of the BBPs, will be reasonably accommodated by the school to allow continuation of their education/career. Determinations relating to provisions in this paragraph will be made on an individual basis.
Blood borne Pathogens

In recognition of the special hazards associated with risk of exposure to and transmission of blood borne pathogens, including but not limited to HIV (human immunodeficiency virus) BBV (hepatitis B virus), and HCV (hepatitis C virus) special policies and procedures have been adopted. An online training program, consistent with the policies of the Occupational Safety and Health Administration (OHSA), is utilized for the benefit and protection of all students within the nursing program. Every student must complete the training program before entering the clinical site in affiliating agencies or the Nursing Center. Students will be notified when this training will take place.

STUDENT RESOURCES

POLICY ON BREAST FEEDING ON CAMPUS:

Breast feeding is the recommended method of infant feeding because it is associated with scientifically documented health benefits for both mothers and infants. The University, therefore, supports the breast feeding efforts of its students, faculty, and staff. Students, faculty, and staff are welcome to breast feed their infants on the University campus. Safety concerns and avoiding disruptions to regular classroom activities should always be considered. Mothers of crying infants should provide the usual courtesy by caring for the infant outside the classroom. Environments posing a potential hazard to infants, such as (but not limited to) science laboratories, should be avoided.

LACTATION LOUNGE:

A lactation lounge is located in Room 204 A (in the Graduate Reading Room) in the College of Nursing.

CLINICAL RESOURCE AND SIMULATION CENTER (CRSC): Rooms 101, 103, 103E, 105 & 107

The function of the Center is to support the undergraduate and graduate curriculum and to provide a teaching and learning environment for all nursing students and faculty. The CRSC also functions as a multimedia computer center which includes interactive computer assisted software and computerized simulation skills. Human patient simulators are a new addition to the expansion of learning for the CON. The CRSC provides an area where nursing skills are taught, practiced, and evaluated in preparation for students clinical and practicum experiences.

Simulation: Many courses in the College of Nursing offer simulation experiences for students within the Center and other learning labs. Simulation experiences may include but are not limited to using manikins, human patient simulators (computerized manikins), and hybrid experiences (a blending of two or more simulation methodologies). Many of these experiences are digitally recorded and archived for evaluation, feedback and mentoring purposes.

Confidentiality is an essential component of the learning process with simulation. Students are asked not to discuss events of simulation(s) or debriefing(s) with other students. Further, as a leader in simulation education, the College of Nursing may share its experiences and expertise with members of outside
institutions who may occasionally visit the Simulation Center to observe the educational, administrative and technical aspects of simulation learning. During observations by external professionals, neither students or faculty are identified nor are individual student evaluations shared.

Hours of Operation: Academic year: M-F 8:00 - 4:30 with variable evening hours
Summer session: Variable - will be posted outside CRSC
Telephone number: 777-4502

COMPUTER LABS:

The student computer labs are located on the first floor of the CON, rooms 110 and 114. Students have use of Pentium computers and laser printers for word processing, statistical analysis, library searches, and specialized nursing instruction. Internet and e-mail access are also available. The computer lab hours are posted on the doors and on the College of Nursing Technology Department web pages. The labs are staffed by support personnel during most hours of operation. Help is also available from the UND Computer Center by telephone access via the computer help line. Admitted nursing students are allotted 650 sheets each per semester for printing of course related materials.

VERIFICATIONS/IMMUNIZATIONS POLICY

Students admitted to the nursing program are required to provide documentation of current immunizations and tests. Tests may not expire during the semester. Updates or recertifications must be completed prior to starting classes each semester.

The College of Nursing gives the health of the student and the consumer highest priority. CDC guidelines for health care workers are followed, along with contracts negotiated with various agencies for clinical placement of students. Requirements include but are not limited to the following:

- Health Insurance
- Tuberculin testing
- Annual Cardio-Pulmonary Resuscitation Certification (CPR)
- Immunizations: Measles/Mumps/Rubella/Chicken Pox/Hepatitis B
- Additional immunizations may be required with little notice, due to changing health care guidelines or clinical agency requirements.

In addition, students are required to complete Occupational Safety & Health Administration (OSHA) and Health Insurance Portability & Accountability Act (HIPAA) training during their first semester.

INSURANCE

A. **Health Insurance.** Students are required to provide their own health insurance coverage and are responsible for any medical expenses incurred while enrolled in the College. (For further
information, see UND Undergraduate Catalog.) Written proof of individual insurance or a signed waiver is required upon admission. Students are responsible for updating this information should changes in coverage occur.

B. **Liability Insurance.** The University of North Dakota College of Nursing provides liability insurance for all students - on or off campus - each semester they are enrolled in course work in the College of Nursing.

Each undergraduate student is covered up to $1,000,000 for any one incident, and up to $3,000,000 as a total of all claims within one calendar year period. Students are not covered by this liability insurance during personal volunteer work, working for pay (including the Co-op experience), or during self-employment. The employing agency carries liability insurance for students in the Co-op experience.

Students are encouraged to carry their own policy. Reasonable insurance rates may be obtained from the National Student Nurses' Association or from individual insurance companies.

**PROCEDURE FOR DOCUMENTATION OF INSURANCE/IMMUNIZATIONS/ TUBERCULIN TESTING/ CPR CERTIFICATION VERIFICATIONS**

In order to facilitate the process of verifying student compliance with College of Nursing policies and comply with agency contracts, the following procedure has been developed.

1. Prior to the beginning of classes, students are responsible to provide required documentation to Student & Alumni Affairs of the College of Nursing.

2. Upon receipt of required documentation, the information will be entered into the data base and file copies placed in the students' records.

3. Updated lists will be placed on the “S” drive for faculty to review.

**Health Insurance:** Students are required to provide their own health insurance coverage and are responsible for any medical expenses incurred while enrolled in the College of Nursing. Written proof of individual insurance or signing of the “Assumption of Responsibility for Health Treatment” form is required prior to admission. Students are responsible for updating this information with the College of Nursing should changes in coverage occur.

The following immunizations/tests/certifications must be completed prior to admission to the College of Nursing. Documentation must be on a health care agency form and signed by a licensed healthcare professional. All doses must be valid.

**Hepatitis B Immunization:** 3 doses (at least the first dose given prior to admission), along with post-vaccination serologic testing required. Students may sign a waiver of declination to be vaccinated and/or to complete the post vaccination serologic testing.

High-risk adults which include health care workers should be vaccinated. Risks are often highest during the professional training period. Therefore, vaccination should be completed during training before trainees have contact with blood or other potentially infectious materials.
Three doses of Hepatitis B vaccine are needed. All nursing students must provide post-vaccination, serologic testing for a response to the Hepatitis B vaccine, even if the series was completed prior to December of 1997. Post-vaccination testing should be performed 1-2 months after completion of the vaccine series. However testing will be required even if the interval between the completion of the series and the post-vaccination serologic testing is greater than 2 months (Altru Health System request). Persons who are determined to be nonresponders should be counseled by their health care providers.

**Measles, Mumps & Rubella (MMR):** 2 doses. No vaccination required if born before 1957. (Usually considered immune but not a guarantee, vaccination is recommended).

Adults in high-risk groups, such as health care workers, should receive a total of two doses. Adults born before 1957 are usually considered immune, but proof of immunity may be desirable. A recommendation of a dose of MMR vaccine to unvaccinated students born before 1957 should be considered. Students with or without patient-care responsibilities, who are measles or rubella susceptible, can contract and transmit these diseases.

Students known to be pregnant or attempting to become pregnant should not receive the rubella vaccine. These students should be counseled by their health care professional regarding attendance at classes.

**Varicella (Chickenpox) Immunization:** No vaccination required with a reliable history of the disease. 1 dose if vaccinated before age 13 years or 2 doses if vaccinated at 13 years of age or older.

All susceptible adults should be vaccinated, especially nursing students who have close contact with persons at high risk for serious complications. Students with reliable histories of chickenpox (such as self or parental report of the disease) can be assumed to be immune. Students who have no reliable history may choose to have serologic testing.

**Tuberculin testing:** Upon admission, students must provide documentation of a negative two step TB test (or 2 negative TB tests). The second step should be administered between one and three weeks after the first test. Thereafter students must submit a negative TB test annually.

Students who are positive reactors must have a report of one negative chest x-ray on file and a statement signed by self and a health care provider, assuring absence of symptoms.

**Cardio-Pulmonary-Resuscitation Certification (CPR):** Students must maintain current verification of CPR certification by the American Red Cross or American Heart Association in Basic Life Support. Certification training must include annual infant, child, and adult CPR as well as both 1 and 2 person CPR. Written documentation must include the expiration date of current certification. CPR will be renewed on an annual basis.
STATEMENT OF ABSENCE OF SYMPTOMS

Because I have a positive tuberculin skin test, I agree to sign this document.

I, the undersigned, do attest to not having communicable disease symptoms of tuberculosis (productive or prolonged cough, fever, chills, loss of appetite, weight loss, fatigue or night sweats*).

I, the undersigned also attest to having a negative chest x-ray as documented by the attached note from the radiologist, dated: ________________. I have agreed to have this chest x-ray at my own expense as required; I understand that it is required because the tuberculosis skin test was positive I hereby assume social and economic responsibility for myself as follows:

Should I or my clinical professor with whom I work or study note the appearance of any of the above or other signs and symptoms of tuberculosis, which may indicate illness, I will seek medical consultation regarding my health in relation to working/studying in nursing.

I will remain out of the clinical and classroom setting until I am declared by my health care provider to be free of communicable signs/symptoms; I will submit to my faculty a permit from my health care provider attesting to my health status. I will provide a copy of that permit to the College of Nursing Office of Student Affairs.

____________________________________
Signature                     Date

I verify the student is free of communicable disease symptoms of tuberculosis.

____________________________________
Signature of Health Care Provider       Date
Hepatitis B

All nursing students must provide proof of the Hepatitis B vaccine series and an antibody test. The antibody test is a post-vaccination serologic response to the Hepatitis B vaccine. A positive antibody titer indicates protection from hepatitis B infection.

Nursing students who complete the Hepatitis B vaccination series will need to provide documentation of a positive antibody titer. The titer should be taken no less than 1 month after completion of the series. If the series was completed more than 2 months ago, a titer must still be taken (even if the Hepatitis B series was completed prior to December of 1997).

**If the antibody titer is positive**, the student will be considered protected.

**If the antibody titer is negative**, one dose of hepatitis B vaccine will be given and an antibody titer done in 1-2 months.

**If the second titer is negative**, the remaining 2 shots in the hepatitis B vaccine series will be completed along with another antibody titer.

**If the antibody titer following the completion of the second series is negative**, the nursing student will be considered a non-responder and considered susceptible to hepatitis B infection if exposed.

A student may sign a declination (waiver) for the Hepatitis B vaccine and/or the antibody titer. Students who are in the process of completing the vaccination and antibody titer (with subsequent vaccines/titer submitted when due) OR have signed a waiver will be allowed to continue clinical experiences.

**WAIVER OF LIABILITY**

I understand and realize that during my course of study at the University of North Dakota College of Nursing and its affiliated clinical sites I am at risk of exposure to the blood/body fluids of patient/resident/clients. I understand that there is a vaccine to protect me against Hepatitis B and a Hepatitis Antibody test, which would provide me with knowledge about my immunity. At this time, I am choosing not to be immunized with the vaccine and/or not to have the antibody test. I absolve the University of North Dakota College of Nursing and its affiliated contracted clinical sites from any liability should I become infected with Hepatitis B.

DATE
STUDENT ACTIVITIES AND ORGANIZATIONS

Events each year at the CON have included such functions as pinning ceremony for BSN graduates, annual picnics, Home Coming events, and awards recognitions. Notices of such events will be published in advance.

College of Nursing Student Council:

The Student Council serves as an official channel of communication between students, the CON administration, faculty, and the University. As a nursing student, you are a member of the Student Council and can use this as a means to participate in the affairs of your College, as well as to gain networking skills and peer support. Development of teamwork and leadership ability goes along with the inner confidence attained in active participation. Several standing Committees exist in the CON in which students may hold positions. Some of these are:

Undergraduate Curriculum Committee
Undergraduate Student Concerns Committee
Altru Health System Collaboration Committee

Student representation is also available on the UND Faculty Awards Committee, UND Governance Council, and on the UND Senate.

Membership in Student Council includes many fun activities during the year. Some of these activities may include: selling popcorn at the Student Union, creating a Homecoming float, or taking part in the annual Fall Picnic. Fund raisers in the past have contributed to the purchasing of a microwave and refrigerator for the student lounge, a telephone for student use at no charge, a hot drink vending machine, and a copy machine on first floor of the CON. Students also represent the CON in University events such as UND’s Family Weekend.

Student Council meetings are held monthly and usually are held in Room 102 over the noon hour. All students are encouraged to attend whenever their schedules allow. Please contact any of the Officers or Advisors for further information. The names of Officers and Advisors will be sent out to students electronically, as well as any specifics for the meetings.

Nursing Student Association (NSA):

As a nursing student, you can become involved in a national organization and have your voice heard at the College, State, and National levels of the Association. Joining NSA will connect you with 38,000 nursing students who are already taking advantage of the many programs and benefits the Association has to offer. Membership in NSA provides scholarship opportunities, reduced rates on health, accident, and malpractice insurance, opportunities to attend and participate in State and National conventions, and more. To learn more about NSA, come to one the meetings or contact any of the Officers or Faculty Advisors. Check the Bulletin Board on first floor of the CON for the names of Officers and Faculty Advisors, as well as meeting times and place.
SCHOLARSHIPS

SCHOLARSHIP AND AWARDS SELECTION PROCEDURE

AWARDS FROM COLLEGE OF NURSING

This policy shall pertain to all undergraduate scholarship funds assigned to the college of nursing by external organizations, the Office of Financial Aid or the Alumni Foundation unless specifically mandated otherwise.

THE SELECTION PROCESS

1. Each fall the Student Concerns Committee Chairperson appoints an Awards Sub-Committee consisting of two faculty members, at least one of whom is on Student Concerns, and the Director of Student Affairs (DSA).

2. Before the Christmas Holiday break, paper copies of the application form and scholarship information are made available on the first floor so that students can work on them during the break. The same documents are sent to the students electronically.

3. Students turn their completed scholarship applications to the third floor Information Window by the Monday following Spring Break.

4. Once the scholarship deadline is past, Student Affairs will send a list of all applicants to the Financial Aid office and request that they check the students for financial need.

5. The UND Financial Aid Office and Alumni Foundation will notify the College of Nursing as to the amount of money available for each of their scholarships. The DSA will check with the Altru Alliance contact to determine funds which have been assigned for scholarships by the Alliance. The Financial Aid office will notify the College of Nursing of the amount available for each of their scholarships (Brathovde, Campbell, Mannes-Benson). The DSA will check with the CON Business Officer and/or the Alumni & Development Coordinator on the amount available for the Berve scholarship and the Dakota Medical Scholarships. The Awards Sub-Committee will determine how many scholarships will be given from each fund, usually one or two, in accordance with the directives of each Scholarship.

6. Each member of the Awards Sub-committee will read each of the applications for each award, note any comments, and assign a “grade” to the answers of the essay questions in the application 1-3.

7. The DSA convenes the Awards Sub-committee to select the recipients for all awards based on their individual rankings for each award. The larger scholarships will generally be assigned first, then scholarships in smaller amounts. For scholarships with a financial need requirement, financial need as indicated by the Financial Aid office will be considered.

8. The list of recommended recipients is sent to the Financial Aid Office for their approval.

9. The Financial Aid office by the DSA approves the list and notifies the College of Nursing. The Alumni Association is notified of the scholarship choices. In the event that a student cannot be approved for an award, an alternate student will be chosen for that award.
10. The office of the Dean is notified of the selected recipients. The DSA sends a letter to notify the recipient of the award and to invite them to participate in a homecoming event where they will be recognized.

11. If a graduating Senior is selected for an award (as in the Campbell scholarship), the College of Nursing notifies Financial Aid to award the total amount in a check. If a semester 5 student is selected, the College of Nursing notifies Financial Aid to award the total amount for the fall semester.

12. For semester 1-4 students, the scholarship award is applied to tuition, half each semester for the next academic year.

13. Each recipient will be recognized at an event the following fall in conjunction with Homecoming. They will be invited to sit with the donor of the award if that person is present.

14. All names of the recipients of awards are submitted to Student Concerns Chairperson for the annual report.

15. Students are asked to submit a picture and a copy of their thank you notes to the donor. These are forwarded to the Alumni & and Development Coordinator for placement in newspapers, according to student specifications in their application.

**Scholarships for Disadvantaged Students:**

Federal funding from the Department of Health and Human Services to support Scholarships for Disadvantaged Students may be available. As funding notifications are not received until the summer months, students are invited to apply during the summer/fall semesters of each year. In the event that funding is secured, the College of Nursing and University of North Dakota will award and disburse the funds to applicants in accordance with the stated grant objectives. The purpose of these scholarships is to assist in recruiting and retaining students from educationally or economically disadvantaged backgrounds, including students who are members of racial and ethnic minority groups. Additional information and applications will be made available during the summer months; or may be obtained from the Director of Student & Alumni Affairs, room 301, College of Nursing.

**Nursing Education Loan**

The Nursing Education Loan Program is available to students in associate, bachelors and masters degree programs in nursing. It also is available to graduate nurse students pursuing a doctorate and nurses enrolled in a refresher course. This loan is provided through the North Dakota Board of Nursing and the deadline to apply is typically July 1. See their web site at [www.ndbon.org](http://www.ndbon.org) for additional information on eligibility.
ALTRU ALLIANCE SCHOLARSHIP

This scholarship was initiated in the year 2000 by the Altru Hospital Auxiliary (later Altru Alliance). The purpose of the Altru Alliance is to provide a link between Altru Health System and the communities it serves, to provide services and items of comfort and convenience for patients and their families, and to provide funds to support the activities of the Altru Health System.

AWARD: The number of scholarships and the amounts of each are to be determined annually by the Altru Alliance and are available upon request. Typically awards have been $1,000 each.

CRITERIA:

1. Must be an admitted nursing student.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative GPA of 3.0 or above as of the end of the fall term.
4. Evidence of involvement and volunteer efforts (as stated in application and/or in reference letters).
5. Evidence of professionalism and clinical excellence (references).
6. Financial Aid statement: If you are not already receiving financial aid, you must fill out a Returning Student Scholarship application and have it on file in the Financial Aid Office (available on the web under Financial Aid).

BERTHA BECK SCHOLARSHIP

This scholarship was established in 1959 by the family and friends of Bertha Beck, RN in respect and admiration for the contribution she made to health care and nursing profession. Bertha Beck graduated from the Winnipeg General Hospital School of Nursing in 1917, served in the Canadian Nurse Corps, and did staff and private duty nursing in Winnipeg. In addition she was active in numerous profession and civic organizations on the state and national level including the President of the North Dakota Tuberculosis and Health Association. While engaged in graduate work in New York, Bertha met and married Dr. Richard Beck who taught Scandinavian languages at UND.

AWARD: One scholarship annually, approximately $550.

CRITERIA:

1. Credit hour equivalent of a junior ranking and majoring in nursing.
2. Ranked among the top 10% in their academic performance.
3. Demonstrate high leadership potential by relevant objectives met in clinical.
4. Evidence of literary and cultural interests (such as a double major or minor, one of which is in liberal arts; liberal arts electives beyond required subjects, etc.).
5. Demonstrated satisfactory clinical performance through safe practice techniques, caring approach, and overall commitment to nursing.
CLENORA EVANGELINE ANDERSON BERGE SCHOLARSHIP

This scholarship was established in loving memory of Clenora Evangeline Anderson Berge by her husband Arthur, her children Sharon and Arlin and granddaughter Michelle. Clenora was from McVille, ND and received her RN diploma from Deaconess Hospital in Grand Forks, ND. She did post graduate work in pediatrics at the Children’s Hospital in St. Paul, MN. Her husband Arthur was in the military and she worked at a number of hospitals as he was transferred throughout the country. Clenora loved her home and garden and always had beautiful flowers. Her church and faith were of primary importance to her. She died in December 1996 in Pugalleys, WA. Letters of thanks should be addressed to Arlin Berge, 1362 S. University, Denver, CO 80210.

AWARD: One scholarship of approximately $800.

CRITERIA:

1. Junior or senior nursing student at the time funds are disbursed.
2. Nominees may be recommended by the faculty, department chairpersons, or the dean of the College of Nursing.

HAZEL B. BERVE SCHOLARSHIP

The Hazel B. Berve Scholarship was established by Hazel Berve in memory of her husband who was cared for by a male nurse during his terminal illness. She established this scholarship in order to encourage male nursing students who have financial needs.

AWARD: One scholarship annually, approximately $500.

CRITERIA:

1. Male student - junior or senior nursing student at the time funds are disbursed.
ISABELLE R. BRATHOVDE SCHOLARSHIP

This scholarship was established by the family of Isabelle R. Brathovde to honor their mother's contribution to nursing. Belle, as she was called, received her diploma in nursing at Hillcrest Surgical Hospital, Minneapolis, MN in 1913. She married in 1915 and worked part time as a private duty nurse while they raised their six children. After her husband passed away in 1937, Belle took a nursing refresher course and moved to Grand Forks. During the remainder of her career she was employed as a nurse in Grand Forks and Minneapolis. She was a lover of verse. A collection of her poems was presented to the College of Nursing by the Brathovde family.

AWARD: One scholarship annually, approximately $400.

CRITERIA:

1. Second semester sophomore in nursing during the fall semester of the academic year in which the funds are disbursed.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative and Nursing GPA of 3.0 or above as of the end of the fall term.
4. Financial Aid statement: If you are not already receiving financial aid, you must fill out a Returning Student Scholarship application and have it on file in the Financial Aid Office (available on the web under Financial Aid).

RUTH BURRAGE SCHOLARSHIP

Ruth Burrage, Professor Emeritus, established this scholarship to promote educational excellence within the College of Nursing. Ruth received her diploma in nursing from Peter Bent Brigham Hospital School of Nursing in 1929. She later earned her B.S. at the University of Rochester and her M.S. at Case Western Reserve University in Cleveland, Ohio. She served in the Army Nurse Corps during World War II. Ruth taught at the UND College of Nursing from 1951 to 1977. She served as Associate Dean at the College of Nursing, chaired the building committee for the present College of Nursing building and was active in professional and community organizations. Ruth Burrage passed away on January 14, 2002.

AWARD: One scholarship annually, approximately $1,000.

CRITERIA:

1. Recipients must at least be in the junior year of study.
2. Academically proficient (3.30 GPA minimum).
3. Must demonstrate financial need as verified by Financial Aid Office.
4. Intention to make nursing a career.
ROBERT C. CAMPBELL SCHOLARSHIP

Established by Robert C. Campbell Foundation in honor of Dr. Robert Campbell, a pioneer physician who practiced in Grand Forks for more than 50 years. He was born in Manitoba and received his BP, MD, and MC degrees from the University of Manitoba and after one year internship settled in Grand Forks. Both Dr. and Mrs. Campbell were leaders in the Community. This scholarship was first awarded in 1974 to the St. Michael's School of Nursing, but when that school was discontinued, the scholarship was established at the University Of North Dakota College Of Nursing. It is awarded to a student who has just completed his/her nursing degree.

AWARD: One to two scholarships annually, approximately $1000.

CRITERIA:

1. Senior in Nursing at the time funds are disbursed.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative and Nursing GPA of 3.3 or above as of the end of the fall term.
4. Financial Aid statement: If you are not already receiving financial aid, you must fill out a Returning Student Scholarship application and have it on file in the Financial Aid Office (available on the web under Financial Aid).

THE WILLIAM AND LUCY CHURCHILL MEMORIAL ENDOWMENT SCHOLARSHIP

This scholarship was established by Helen Churchill Wahlstrand, the daughter of the late William and Lucy Churchill in honor of the contributions made by her loving mother and father and other pioneers who were the builders of our nation. The first scholarship was awarded in 2001. It is hoped that this endowment in her parents’ honor and memory will inspire others to live meaningful and productive lives and be a lasting tribute to the moral strength and fortitude of her parents. This endowment provides scholarships for financially needy students who have demonstrated interest in the areas of nursing or medical research.

AWARD: One scholarship given every other year, approximately $800.

CRITERIA:

1. Demonstrated interest in areas of nursing or medical research.
2. Potential to succeed in health care.
3. Cumulative and Nursing GPA of 3.3 or above as of the end of the fall term.
4. Evidence of financial need through UND.
5. High moral character.

Note: This award often goes to a graduate nursing student. Nursing awards are made on odd numbered years; Medical school on even numbered years.
KATHRYN GRIFFITH SCHOLARSHIP

This scholarship was established by Kathryn Griffith to encourage nursing students who demonstrate academic excellence and the potential for clinical and leadership excellence. Kathryn Howitz Griffith received her diploma in nursing from St. Johns Hospital School of Nursing in Fargo. After marriage in 1932 and settling in the Sarles-Osnabrock area she did private duty and on-call nursing without fee to area families during this depressed time. Mrs. Griffith is now retired and living in Grand Forks.

AWARD: One or two scholarships given annually, approximately $700 each.

CRITERIA:

1. Junior in nursing in the fall semester of the academic year in which funds are disbursed.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative and Nursing GPA of 3.0 or above as of the end of the fall term.
4. Evidence of involvement in College of Nursing, University of North Dakota, Community activities (such as student council, student senate, NSA, EMT activities, health volunteer work, etc.).

DOROTHY HALCROW SCHOLARSHIP

This scholarship established by Dorothy Halcrow to assist a student with financial need in obtaining her nursing degree. Dorothy grew up in North Dakota and graduated from the St. John’s Hospital School of Nursing in Fargo in 1932. It was difficult to find work during the depression so she moved home to Willow City and did home deliveries. In the fall of 1933, she was accepted into post graduate course in obstetrics at Dr. Lee Lying in a hospital which was in connection with the University of Chicago. She worked in Chicago for a time and then returned to North Dakota to work at the Hanna, Clay, Lancaster, McGregor Clinic in Fargo. In 1937, she married John G. Halcrow and they farmed in Bowesmont, ND. In 1954 they moved to Grand Forks where she worked in obstetrics at St. Michael’s Hospital for 19 years. Dorothy now lives in Mesa, AZ.

AWARD: One or two scholarships annually totaling approximately $2,250.

CRITERIA:

1. Open to anyone who has been admitted to the College of Nursing.
MARGARET HEYSE SCHOLARSHIP

This scholarship was established by Margaret (Peg) Heyse Cory, Dean Emeritus in honor of her father Rudolph Heyse who lived with her after the death of his wife. Although Mr. Heyse did not have the advantage of a college education he espoused the values of higher education. Margaret Heyse Cory's background includes a Master's Degree in Biochemistry and graduation from a Diploma Nursing program. She came to UND in 1959 and served as Dean of the College of Nursing until 1978 when she retired and married. She remained active in her retirement, and was awarded an honorary doctorate from UND in 1992 and UND Alumni Association’s Distinguished Service Award in 1984. Margaret Heyse Cory died in Grand Forks on June 4, 2000.

AWARD: One scholarship annually, approximately $500.

CRITERIA:

1. Semester 1, 2, or 3 in Nursing in the fall semester of the academic year in which funds are disbursed.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative GPA of 3.0 or above as of the end of the fall term.
4. Financial Aid Statement: If you are not already receiving financial aid, you must fill out a Returning Student Scholarship Application and have it on file in the Financial Aid Office (available on the web under Financial Aid).

PROCEDURE:

1. Complete a College of Nursing Scholarship Application form.

DEBORAH L. KOSMATKA MEMORIAL NURSING SCHOLARSHIP

Lorraine (Lori) R. Jensen, Florian Kosmatka, Daniel Kosmatka, Robert Kosmatka and Kathleen Ward (Donors), along with other family members and friends, honor the memory of a wonderful and caring sister, friend and nurse, Deborah L. Kosmatka, by establishing the Deborah L. Kosmatka Memorial Nursing Scholarship within the University of North Dakota Foundation. This scholarship will benefit students enrolled in the University of North Dakota College of Nursing and shall be funded each year with a direct gift from the Donors to the University of North Dakota Foundation.

AWARD: One scholarship annually, approximately $500.

CRITERIA:

1. Admitted Nursing student in good standing.
2. Evidence of financial need.
3. Preference given to first generation college students.
4. Second preference given to students with interest in preventative health care as demonstrated by volunteer activities with the American Heart Association, the YMCA or any applicable wellness program.
PAUL & LILLIAN LARSON NURSING ENDOWMENT SCHOLARSHIP

This endowment has been established through a testamentary provision by Paul and Lillian Larson within the UND Foundation.

Allocations from this endowment shall be used to award annual scholarship to a student with a minimum 3.0 grade point average that has been admitted into the nursing program at the University of North Dakota. Eligible candidates must be from Walsh County, ND. The recipient shall be of high moral character and have high potential to lead a successful career in the nursing profession.

AWARD: One scholarship annually, approximately $2,000.

CRITERIA:

1. Resident of Walsh County in ND.
2. Admitted nursing student with cumulative GPA of 3.0 or above.
3. First priority is for an undergraduate student from Walsh county; if non, priority shall be given to eligible candidates in the graduate nursing program from Walsh county, ND.
4. Last priority will be to eligible candidates from Pembina, Cavalier, or Ramsey counties of ND.
5. Recipients shall be of high moral character and have high potential to lead successful careers in the nursing profession.

CLARA LYBECK SCHOLARSHIP

This scholarship was established in 1986 by the family of the late Clara Lybeck in honor of her contribution and dedication to nursing. Clara graduated from Deaconess Hospital School of Nursing in Grand Forks in 1922, after which she joined the staff of the Deaconess Hospital. She remained at the Deaconess Hospital for 42 years assuming leadership positions as operating room supervisor, assistant anesthetist and Director of Anesthesia.

AWARD: One scholarship given annually, approximately $500.

CRITERIA:

1. Junior or senior in Nursing during the fall semester of the academic year in which funds are disbursed.
2. Cumulative and Nursing GPA of 3.3 or above as of the end of the fall term.
3. Evidence of financial need through UND Financial Aid Office.
4. Evidence of professional dedication.
HILDA LYBECK FLYNN MEMORIAL SCHOLARSHIP

This scholarship was established in the year 2000 by the family of the late Hilda Lybeck Flynn in honor of her dedication to the nursing profession and her distinguished service spanning over 40 years for the benefit of countless citizens of the Grand Forks community where she worked and lived. The Donors also wish to recognize the important role Hilda and other pioneer North Dakotans played in the building and development of their communities, their state and nation. Hilda received her basic education in the Petersburg, ND Public School prior to moving to Grand Forks. She graduated from the Deaconess School of Nursing in 1933. For over 40 years, Hilda worked at Deaconess Hospital as a registered nurse and then worked in Grand Forks as a private duty nurse.

AWARD: One scholarship given annually, approximately $500.

CRITERIA:

1. Must have completed a minimum of two years of college level training for the profession of nursing.
2. Evidence of professional dedication.
3. Cumulative and Nursing GPA of 3.3 or above as of the end of the fall term.
4. Evidence of financial need through UND.

MARY JEAN AND FRED MANNES/BETH BENSON SCHOLARSHIP

The original scholarship, set up in 2001 was the Mary Jean Mannes Scholarship for a student in economics. Mary Jean Mannes served as the secretary in Economics for many years. Sometime after Mary Jean passed away, her husband, Fred, remarried. When Fred passed away his second wife, Mary (Bohlman) Mannes added Fred’s name to the scholarship. When Mary Jean’s sister, Beth Benson, passed away, Mary (Bohlman) Mannes added Beth’s name to the scholarship and added the nursing scholarship.

AWARD: One scholarship annually, based on availability of funds, approximately $250, to rotate each year between an economics student (odd years) and a nursing student (even years).

CRITERIA AT TIME OF APPLICATION:

1. Must be an admitted student in the nursing program.
2. Must have an application submitted for any other CoN scholarship.
ESTHER MELLEM MEMORIAL NURSING SCHOLARSHIP

Walter Mellem established this scholarship in 2004 in honor of his beloved wife. The first scholarship was awarded in 2009. Throughout her lifetime, Esther Mellem spoke of her desire to become a nurse, however family commitments to her husband and children became her priority and she never fulfilled her dream of attending nursing school.

AWARD: One scholarship annually, approximately $900.

CRITERIA:

1. GPA of 3.00 or higher.
2. Evidence of financial need.
3. Junior or senior status in program.
4. The same student may receive scholarship for two years if they reapply and continue to meet the criteria stated.

ERIC & HELYN MORRISON MEMORIAL SCHOLARSHIP

This scholarship was initiated in the year 2001 by the family of Eric & Helyn Morrison, after the death of Eric Morrison on March 28, 2001. Their daughter, Dr. Diane Morrison Langemo, served on the faculty of the College of Nursing for many years and taught at both the undergraduate and graduate levels.

AWARD: One scholarship annually, based on availability of funds, $500.

CRITERIA:

1. Must be an admitted undergraduate nursing student.
2. Enrolled in nine (9) or more credits at the time funds are disbursed.
3. Cumulative GPA of 3.0 or above at the end of the fall semester.
BEVERLY TORGRIMSON MUNYER MEMORIAL SCHOLARSHIP

The husband and family of Beverly Torgrimson Munyer established this endowment in 1990 to honor and remember their late wife and mother. Beverly Torgrimson, the daughter of Gust and Ruby Torgrimson, was born April 21, 1935 in Goodridge, MN. Following graduation from high school she attended the School of Medical Technology in Minneapolis. She and George met in Williston, ND while she was employed in the medical technology field there. They later moved to Bozeman, MT, and then to Grand Forks, ND, where George attended UND and they occupied one of the first family housing units in the (then) Princeton Trailer Court. Bev worked in Grand Forks as a medical technologist and was encouraged by her employer to attend medical school. In 1983 she received an associate degree in nursing from Northland College in Thief River Falls and went to work as a registered nurse at the United Hospital where she worked in the telemetry and intensive care units. She died of cancer on February 3, 1990 at the age of 54. This scholarship is not yet endowed and has not yet been disbursed.

CRITERIA:

1. Dedicated older than average student (35 or over preferred) admitted to UND Nursing program.
2. Scholastic ability and personal character will be considered.
3. Financial need should be taken into consideration but is not a prerequisite for receiving the scholarship.
4. Priority shall be given to new students coming into the nursing program.

JANE S. NELSON NURSING ENDOWMENT SCHOLARSHIP

This endowment was established by Jane S. Nelson to invest in the ongoing growth and development of the University of North Dakota. Jane Nelson was originally from Billings, Montana. She was a 1974 graduate of the University of North Dakota Nursing program. This scholarship was first awarded in 2008.

AWARD: One award annually; approximately $700.

CRITERIA: As chosen by the College of Nursing Scholarship and Awards Committee.
MARGRETE RASMUSSON SCHOLARSHIP

This scholarship was established by the Rasmusson family to honor their mother Margrete and her parents who made her career possible. Margrete was a native of Dazey, ND. She received her diploma in nursing at the Eitel Hospital in Minneapolis and stayed on there to become the evening nursing supervisor. She played a major role in building and developing the Minneapolis community.

AWARD: One or two scholarships given annually, approximately $1,000 total.

CRITERIA:

1. Junior in Nursing during the fall semester of the academic year in which funds are disbursed.
2. Evidence of professional dedication.
3. Cumulative GPA of 3.3 or above as of the end of the fall term.
4. Evidence of financial need.
5. Resident of North Dakota or Minnesota.

GRACE SORLIE AND STELLA MANN SCHOLARSHIP

This scholarship was established by Ruth Sorlie Edick in honor and memory of her mother and aunt. Grace Sorlie (her mother) attended UND and taught school in Minneapolis and Grand Forks. In 1920 she married A.G. Sorlie and became first lady of North Dakota when her husband was elected Governor. Grace devoted herself to her three children and was active in many political and community organizations. Grace’s sister, (Ruth’s aunt) Stella Mann graduated with a BA degree from UND and later earned a masters degree from University of Iowa. She taught school and later at teachers’ colleges. Her husband George Mann was owner of the Bismarck Tribune and after his death Stella took over as publisher, although she had no previous newspaper experience. She became a civic leader as well as being noted as one of Bismarck’s most gracious hostesses.

AWARD: 2-3 scholarships annually, approximately $1000 each.

CRITERIA:

1. Open to anyone who has been admitted to the College of Nursing.
2. Enrolled in 9 or more credits at the time funds are disbursed.
3. Cumulative GPA of 3.0 or above as of the end of the fall term.
4. Financial Aid Statement: If you are not already receiving financial aid, you must fill out a Returning Student Scholarship Application and have it on file in the Financial Aid Office (available on the web under Financial Aid).
GEORGE AND EDNA WARD NURSING SCHOLARSHIP ENDOWMENT

This endowment agreement was initiated in the year 1989 by George and Edna Ward of Grand Forks, North Dakota. George Ward was born near Michigan, North Dakota, June 17, 1905. Edna was born October 29, 1919 in Grand Forks County to John M. and Elizabeth Albright Schauer. Edna was employed at the University of North Dakota from 1969 to 1984. Many of those years were spent as custodian in the College of Nursing building. In recognition of her loyalty and dedication to UND, a room at the College of Nursing was named in her honor August 14, 1987. George Ward died January 7, 1991. Edna Ward passed away on November 23, 2001.

The first scholarship was awarded from this endowment in May 2003 (for the 2003-2004 academic year).

AWARD: One scholarship annually, based on availability of funds, approximately $1,000.

CRITERIA:

1. Admitted nursing student.
2. Must be of sound moral character.
3. Cumulative GPA of 3.30 or above as of the end of the fall term.
4. Evidence of potential for leadership and career achievement.
5. Preference will be given to students who demonstrate financial need.

FAYE J. WEIR NURSING SCHOLARSHIP ENDOWMENT

This scholarship was initiated in the year 2002 by Faye J. and John L. Weir of Olean, New York. John and Faye (Stelter) Weir are originally from Jamestown, ND. Faye received a bachelor’s degree in Nursing from UND in 1980. John received a bachelor’s degree in Management from UND in 1985.

AWARD: One scholarship annually, based on availability of funds, approximately $500.

CRITERIA:

1. Must be a junior or senior in the nursing program at the time funds are disbursed.
2. Cumulative GPA of 3.0 or above as of the end of the fall term.
3. Of high moral character and identified as high achieving student.
4. Evidence of financial need.
5. If a student has double major in Nursing and Honors, special consideration should be given.
WENDSCHLAG FAMILY SCHOLARSHIP FUND

Established by James C. and Janey C. Wendschlag and by Dwight D. and Peggy L. Wendschlag, this scholarship is intended for nursing majors in their junior years.

AWARD: One scholarship annually, based on availability of funds, approximately $500-700.

CREITERIA:

1. Junior in program.
2. Minimum 3.00 cumulative CPA.

Students who receive this award in their junior year and remain in good standing will be considered for an award in their senior year. No student will receive this award for more than 2 years.
A. Overview

College of Nursing courses are sequenced to build upon one another over five semesters. Students may begin the five-semester sequence in either the fall or spring semester.

The College will admit students in October each year to fill the Spring Semester class and in March to fill the Fall Semester class. Application to the College of Nursing does not constitute application to the University of North Dakota. Students are to seek admission through the University Office of Admission prior to applying to the Nursing program. Applicants must apply for admission to UND and submit required documentation by the posted deadlines in order to assure their Nursing application will be considered. The deadlines for UND application and documents to be submitted are June 20 for the spring admission and January 20 for the fall admission. The deadlines for nursing applications to be submitted, including a personal statement, are July 1 for the spring admission and February 1 for the fall admission. The review committee cannot act on applications of transfer students unless all transcripts have been submitted to the UND Undergraduate Admissions Office. It is allowable for applicants for spring to complete pre-requisite course work over the summer but in this case two transcripts will be required – one for admission to UND prior to June 20 and another by August 15 reflecting the summer course work with grades.

Students who desire admission outside stated requirements must petition in order to be considered for admission. The petition is initiated by the student, with their academic advisor and follows the appropriate route for the specific circumstances. Petitions pertaining to admission to the College of Nursing must be completed by September 1 for spring admission and February 15 for fall admission.

B. Application Criteria:

1. Admission to the University of North Dakota.
2. Current transcripts submitted to UND from all other universities or colleges attended.
3. Complete on-line application for admission to the College of Nursing.
4. Submission of a Personal Statement; content to be determined by Undergraduate Nursing Student Concerns Committee and communicated to student at point of application. This statement should be one to two pages, typed, and double-spaced.
5. Signature on functional abilities release statement.
6. A minimum overall and UND grade point average of 2.50
7. Completion of the following courses or equivalents with a letter grade of a C or better:
   - *English Composition 120 or 125
   - *Psychology 111
   - *Sociology 110 or 115 or Anthropology 171
   - *Chemistry 116/Lab Organic Biochemistry (or Chem122/Lab & Biology 150 & 151 & Labs)
   - *Anatomy 204 (Human Anatomy) and 204 lab
   - Math 103 College Algebra
   - Chemistry 115 & Lab or Chemistry 121 & Lab
   - Developmental Psychology 250 or Abnormal Psychology 270 (both required before starting nursing classes.)

*Core courses used in admission calculation along with points awarded to Personal Statement.
C. Selection Process

Admission decisions are made by the Undergraduate Nursing Student Concerns Committee, using a blind review process. Students will be notified by mail of their admission status. Spring admission letters will be sent out mid October and fall admission letters will be sent mid March of each year. This letter will contain specific instructions for those who have been admitted. Applicants who are not granted admission for the semester they requested are also notified and are eligible to reapply in a later semester. Students who had a previously qualified application within the past year will be awarded two points. Students who decline admission, withdraw, are dismissed, or do not successfully complete prerequisite courses do not qualify for the 2 extra points. A limited number of students will be placed on a waiting list if there is an excess of qualified applicants. In the event that a student has not received notification in the above stated timely fashion, it is the student's responsibility to contact the Admissions and Records Associate at the College of Nursing to inquire about the status of their application.

D. Admission Acceptance Criteria

Upon notice of admission to the Nursing Program, students must submit the following by the date indicated on the Admission Acceptance form. Failure to do so by deadline will result in loss of nursing placement.

1. Sign and return Admission Acceptance Form.
2. Submit non-refundable $75.00 deposit on program fee.
3. Submit documentation of either:
   a. Current CNA certification and CNA course completion; or
   b. Current CNA certification and three months of employment as a CNA.
5. Proof of immunity to chicken pox (varicella).
6. Proof of immunity to measles (rubeola), mumps & rubella (2 MMR immunizations).
7. Two negative TB tests (Mantoux) with the last test current for the entire semester of admission; thereafter, students must submit an annual TB test.
9. Hepatitis B antibody titre, a test for immunity following vaccination, after the Hepatitis B series is completed. (Anti-HBs is the antibody test to hepatitis B surface antigen).
10. Current CPR certification by the American Red Cross or American Heart Association to include adult, infant and child and one- and two-person CPR. Certification must be renewed annually throughout the nursing program.

Additional Acceptance Criteria include the following by August 15 for Fall admission or December 31 for Spring Admission:

1. 2.50 Overall and UND GPA
2. Completion of the following courses with a grade of “C” or better prior to beginning nursing courses:
   - Microbiology 202/Lab
   - Human Physiology 301
3. Submission of College of Nursing designated background check with acceptable results, in accordance with College of Nursing background check policy.

NOTE: Students will be following requirements in UND academic catalog that is active at the time of their admission to the Nursing program unless they request otherwise.

E. Admission of Advanced Placement Students

Advanced placement admission of students due to nursing transfer courses or readmission will be in accordance with the above stated criteria. Additional pre-requisite courses will be required in accordance with the level of admission. Transfer nursing students who have not completed a nursing program must provide a letter from the prior nursing program documenting good standing in that program with an optional interview with the Dean.

Students who have been dismissed from the UND nursing program and wish to be readmitted must submit the Application for Readmission form by the application deadline of July 1 (for spring admission) or February 1 (for fall admission) and after an absence of at least one semester. The Dean will determine eligibility of candidate for admission consideration on an individual basis based on the information provided. A personal interview with the Dean may be requested by the Dean or the student. If readmitted by the Student Concerns Committee, the student will be on permanent probation.

F. Progression and Graduation

The Nursing courses are sequenced to build on each other over five semesters. Each semester is to be completed in its entirety before a student can progress to the next semester. Students must meet the following criteria to progress to the next semester of nursing courses.

1. A 2.50 overall GPA is required for progression at the end of each semester. A 2.50 overall GPA is required for graduation.
2. 129 credits must be completed to graduate with a BSN.
3. Must achieve a letter grade of at least a "C" on all courses listed below and all courses required in the Nursing curriculum:

   - English 110 (English Composition I) English 120 (English Composition II) or English 125 (Business & Technical Writing)
   - Psychology 111 (Introduction to Psychology)
   - Sociology 110 (Introductory) or 115 (Social Problems) or Anthropology 171 (Cultural Anthropology)
   - Chemistry 115 or 121 and Lab
   - Chemistry 116 (Organic & Biochemistry) and Lab (or Chemistry 122 with Biology 150 & 151 and Labs)
   - Anatomy 204 and Lab
Application/Admission Criteria & Progression for Baccalaureate Accelerated Curriculum (BAC2)

A. Overview

The Baccalaureate Accelerated Curriculum (BAC-2) is open only to students who already have a baccalaureate degree in a discipline other than nursing. The accelerated nursing curriculum is offered in four sequential academic terms (spring, summer, fall, spring). The courses offered and number of credits earned are identical to the traditional BSN curriculum.

Students begin the four semester sequence in the spring semester. Application to the College of Nursing (CON) does not constitute application to the University of North Dakota (UND). Students are to seek admission through the University Office of Admission prior to applying to the CON. Applicants must apply for admission to UND and submit required documentation by the posted deadlines in order to assure their CON application will be considered. The review committee cannot act on applications of transfer students unless all transcripts have been submitted to the UND Undergraduate Admissions Office. The deadline for application and documents to be submitted to the CON is June 30.

Students who desire admission outside stated requirements must petition in order to be considered for admission. The petition is initiated by the student, with the assistance of the CON academic advisor, and follows the appropriate route for the specific circumstances. Petitions pertaining to admission to the College of Nursing must be completed by the June 30 deadline.

B. Application Criteria:

1. Admission to the University of North Dakota.
2. Current transcripts from all other universities or colleges attended have been received by UND.
3. Bachelor’s degree, granted by application deadline, from a regionally accredited institution.
4. Complete application for admission to the College of Nursing Baccalaureate Accelerated Curriculum.
5. Submission of a Personal Statement addressing the student’s decision to pursue a nursing career. This statement should be one to two pages, typed, and double-spaced.
8. A minimum overall and UND grade point average of 2.5 required, 3.00 preferred.

Documented completion of at least 5 of the following courses or equivalents and their pre-requisites with a letter grade of a C or better. All of the following courses must be completed and documented prior to beginning nursing courses.

- Microbiology 202/202L or 302/302L
- Chemistry 116/Lab Organic Biochemistry (or Chem122/Lab & Biology 150 & 151 & Labs)
- Anatomy 204 (Human Anatomy) and 204 lab
- Physiology 301
- Developmental Psychology 250
- Nutrition 240
- Statistics
- Pharmacology 315

C. Selection Process:

Applicants who meet application criteria will be invited to interview based on evaluation of the Personal Statement, cumulative GPA, completion of prerequisites, and references. Applicant interviews are conducted on-campus by the BAC-2 Admission Committee. Following a successful interview, the top applicants are invited for admission and the next 5 applicants placed on a waiting list. Number of students admitted will be determined by the Dean of the CON. Admission preference may be given to students with more pre-requisite courses completed.

Students will be notified by mail of their admission status. This letter will contain specific instructions for those who have been admitted. Applicants who are not granted admission are also notified by mail and are eligible to reapply. In the event that a student has not received notification by August 15, it is the student’s responsibility to contact the Admissions and Records Associate at the College of Nursing to inquire about the status of their application.

D. Admission Acceptance Requirements:

Upon notice of admission to the Nursing Program, students must submit the following by the date indicated on the Admission Acceptance form. Failure to do so by deadline will result in loss of nursing placement.

1. Sign and return Admission Acceptance Form.
2. Submit non-refundable $75.00 deposit on program fee.
3. Current medical/hospitalization Insurance or Certification of Assumption of full responsibility for any health treatment costs incurred.
4. Proof of immunity to chicken pox (varicella).
5. Proof of immunity to measles (rubeola), mumps & rubella (2 MMR immunizations).
6. Two negative TB tests (Mantoux) with the last test current for the entire semester of admission; thereafter, students must submit an annual TB test.
8. Hepatitis B antibody titre, a test for immunity following vaccination, after the Hepatitis B series is completed. (Anti-HBs is the antibody test to hepatitis B surface antigen).
9. Current CPR certification by the American Red Cross or American Heart Association to include adult, infant and child and one- and two-person CPR. Certification must be renewed annually throughout the nursing program.
10. Submission of College of Nursing designated background check with acceptable results, in accordance with CON background check policy, prior to beginning nursing courses.
11. Certified Nursing Assistant (CNA) certification or completion of the accelerated nurse assistant preparation course offered at the College of Nursing prior to beginning nursing courses.

Students will be following requirements in the UND academic catalog that is active at the time of admission to the Nursing program unless they request otherwise. All students are required to meet UND’s Essential Studies requirements for graduation, however students who have a degree from a North Dakota University System school or a school belonging to Minnesota State Colleges and Universities System will be considered to have met those requirements. Students with degrees from other universities may be required to take additional Essential Studies courses.

E. Progression and Graduation:

The Nursing courses are sequenced to build on each other over four academic terms. Each semester is to be completed in its entirety before a student can progress to the next semester. Students must meet the following criteria to progress to the next semester of nursing courses.

1. A 2.50 overall GPA is required for progression at the end of each semester. A 2.50 overall GPA is required for graduation.
2. Must achieve a letter grade of at least a "C" in all courses.
3. Benchmark scores on ATI progression assessments and predictor exam must be achieved or the remediation process successfully completed.
4. Consequences of failure to achieve a letter grade of at least a “C” in all nursing courses are addressed in policy 226: Academic Issues: Repeating Nursing Courses, Probation, and Dismissal.
5. In the event a student needs to repeat a course or term, the academic advisor, Associate Dean of Undergraduate Studies and Director of Student Affairs will consider progression options which may be available to the student. In consultation with appropriate department chair(s), a recommendation will be made to the Dean.
SPECIAL EXAMINATION POLICIES

Policy 210

1. Challenge examinations will follow University procedures for Special Examination for Credit (see academic advisor for additional information).

2. Challenge examinations are considered credits in residence, but do not satisfy the minimum of 15 credits of faculty supervised junior and senior clinical nursing course instruction required for graduation of all students except RN/BSN students.

3. Individuals who desire to challenge courses must apply to the appropriate Department Chair within the first eight weeks of the semester in which the challenge exam will be taken. Courses that contain a clinical component may require a clinical performance evaluation in order to challenge the course.

   o The written portion of the challenge exams for Assessment across the Lifespan, and to Adult Nursing Care I are available to students to write during the summer months. Students wishing to challenge during the summer months must notify the Department Chair no later than April 15 of their intentions. A written challenge must be completed by August 1. If a clinical component is involved, the clinical performance evaluation must be completed and graded prior to registration for the fall semester. Due to availability of faculty, it is recommended that such challenges be completed during the regular academic year.

TRANSFER OF NURSING CREDIT

Policy 407

1. The student submits the completed “Transfer of Nursing Credit Request” form (available on the CON S:drive or from the CON Records Office) to the appropriate Department Chair with any evidence, such as course syllabus, objectives, outlines, notes, tests, etc. that will assist the department in making a decision regarding the request.

2. The department chairs and/or faculty discuss as necessary, review, and make a decision regarding the request.

3. The decision is communicated to the student by the Admission, Records and Advising Associate. The original document is placed in the student’s file.

4. In the event of a controversy regarding the department's decision, the request is forwarded to the Curriculum Committee for resolution.
Transfer of Nursing Credit Request

Part A: Student completes and submits a form for each Nursing course requesting to be transferred:

TO: UND College of Nursing Department Chair

FROM: (Student Name) ______________ (ID #) __________

(Address) ______________

Telephone #: ______________

Name/location of previous nursing program: ______________

REQUEST: I request to receive transfer of credit for the following nursing course. (Please use a separate form for each course, list course number and title. Attach syllabus, course description, overview, objectives, & topical outline.)

Course #: ___________ Course Name: ________________________________

Credits:_________ Grade Received: ___________ Date Completed: ______________

Do you want to meet with or be present when the Department Chair/representative reviews your request?

Yes ___ No ___ If yes, please make an appointment with the chair/representative.

Part B: (For Office Use Only)

DEPARTMENT/FACULTY DECISION ON TRANSFER

The above course was considered for transfer as equivalent for UND Nursing Course # ______________

Decision: Approve _____ Disapprove _____ Conditional Approval___________

Rationale/Conditions:

Signature of Department Chair: __________________________ Date: ______________

Signature of Instructor (if appropriate): __________________________ Date: ______________
1. Students **who have successfully completed at least one semester** in the College of Nursing may request a LOA for a maximum of 12 months. Students must meet with their academic advisor and complete the **Application For Leave of Absence Form** prior to the time the student seeks the approval of the Director of Undergraduate Studies. Academic Standing will be considered during the review process.

2. Students who leave the College of Nursing under the provisions of this policy may re-enter the College of Nursing according to the terms of their LOA subject to available space in required courses at the time of re-entry on a first come/first serve basis according to date of final signature.

3. Students are required to notify the Admissions and Records Associate no later than **four weeks** prior to the start of classes if she/he will be returning in order to obtain a place in the appropriate class(es).

4. Applications for a LOA must be submitted by the “Last Day to Add a Full-Term Course” if a student does not plan to register for that particular semester. If the need for a LOA occurs during the semester, the application should be made by the “Last Day to Drop a full-term Course or Withdraw from School” or at the same time nursing courses are dropped, whichever comes first.

5. In unusual circumstances, students may petition for consideration of an extended LOA.

6. Students who do not return to nursing courses at the time designated on the LOA form; students without a LOA who withdraw from all nursing courses and/or support courses in which they are currently enrolled; or students who do not register in the next consecutive semester in which they would normally be enrolled, may be dismissed from the College of Nursing.

7. Students who have been dismissed under the provisions of this policy and wish to re-enter must **reapply** to the College of Nursing. Such applications are subject to all required prerequisites and will be considered with the total applicant pool.

   University policy permits readmission of students to the University of North Dakota. However, readmission to the university does not guarantee readmission to the College of Nursing. If a student uses this LOA form from the College of Nursing in conjunction with the University of North Dakota Withdrawal Report Form, the College of Nursing will abide by any restrictions regarding readmission as established by the Dean of Students Office.

8. Application for Leave of Absence forms are obtained from the College of Nursing Admissions and Records Office. The original form will be placed in the student’s file and a copy of the signed form will be given/mailed to the student.
STUDENT ACADEMIC ISSUE

Discussed with Faculty, Committee, or Administrator

If Not Resolved

GRIEVANCE PROCEDURE

If Not Resolved

COLLEGE OF NURSING
STUDENT APPEALS BOARD

If Not Resolved

DEAN

If Not Resolved

UND STUDENT ACADEMIC STANDARDS COMMITTEE

- Academic Grievance Definition: Refer to current UND code of Student Life
  An issue regarding admission/readmission is not covered by this policy.
  Refer to policies on admission and readmission
ACADEMIC GRIEVANCE POLICY FOR STUDENTS

Academic Grievance Definition: The term "academic grievance" is defined as: A statement expressing a complaint, resentment, or accusation lodged by a student about an academic circumstance (such as grading, testing, quality of instruction) which is thought by the student to be unfair. (Code of Student Life, 1999-2000, p 14)

Academic issues subject to grievance procedures differ from those subject to the academic petition process. The petition process includes a request by the student to have a University, college or program requirement waived or modified. It may include the right to appeal under circumstances outlined in the petition process. The substance of petitions and appeals is under the jurisdiction of individual college, schools, program, or designated University committees. If a student thinks that a petition has not been handled fairly, the student may initiate a grievance based upon unfair treatment, but not upon the substantive issue. (Refer to the Code of Student Life)

The grievance procedure for grade or course related decisions cannot be initiated until the grade is officially entered into the student’s record.

Grievance Process: Each undergraduate, graduate, and professional school or college shall have written procedures for academic grievances. These procedures are to begin with discussion between the grieving student and the faculty member, committee, or administrator with whom the student has a grievance. If the grievance is not resolved at this stage, then the student may advance the grievance through the procedures of the college or school in which the grievance originated. (Code of Student Life)

Grievance Procedure: Failure on the part of the student to follow the Academic Grievance procedure, which assures due process for the individual(s), will result in automatic termination of a grievance.

Dates: See Procedure
Student Grievance Statement

1. Grievance: (Provide a concise description of the grievance and indicate how it affects you.)

2. Request or remedy: (What do you believe should be done?)

3. Rationale for request: (Attach additional Student Grievance statement if necessary.)

<th>Student Responsibilities</th>
<th>Faculty Committee or Administrative Responsibilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student first discusses the issue with the faculty, committee, or administrators involved and attempt to resolve the issue.</td>
<td>The faculty, committee, or administrators involved are responsible to meet in good faith with the student to attempt to resolve the issue and to document the meeting. Copy(s) of documentation to be given to the student.</td>
</tr>
<tr>
<td>If the issue is not resolved at this point, the grievance process may then be initiated by the student. The student may discuss the grievance procedure with his/her academic advisor for clarification.</td>
<td>The faculty, committee or administration involved should inform the student of the grievance procedure (CON Student Handbook) if the issue cannot be resolved.</td>
</tr>
<tr>
<td>The student may proceed by stating in writing his/her intent to initiate the grievance procedure to the party involved within 10 school days from the time the issue was discussed and not resolved.</td>
<td></td>
</tr>
<tr>
<td>It is the student’s responsibility to advance the grievance in accordance with following procedure.</td>
<td></td>
</tr>
<tr>
<td>The student must first obtain the Student Grievance Statement Form from the Admissions and Records Associate of the College of Nursing.</td>
<td></td>
</tr>
<tr>
<td>A Student Grievance Statement must be submitted to the faculty, committee or administrator involved within 10 school days following the written initiation of intent of the grievance procedure.</td>
<td></td>
</tr>
<tr>
<td>The student then:</td>
<td></td>
</tr>
<tr>
<td>a. Submits the copy to the Admissions and Records Associate for placement in a separate grievance file until resolution of the grievance.</td>
<td></td>
</tr>
<tr>
<td>b. Retains the original copy.</td>
<td></td>
</tr>
</tbody>
</table>
The student must schedule an appointment with the individual(s) with whom the issue originated. The original copy of the Student Grievance Statement Form is submitted to the involved individuals at this time. This will allow time for review of the grievance, prior to the formal review, by the individual(s) involved.

Upon receipt of the Student Grievance Statement, the individual(s) involved will meet with the student who initiated the grievance and attempt to resolve the issue in a timely manner (not to exceed 10 school days*).

The individual(s) will complete the Statement of Decisions Related to Grievance Form and attach the original to the Student Grievance Statement and return it to the student for advancement. The copy of the form is submitted to the Admissions and Records Associate to be placed in the student grievance file.

Each faculty/administrative person hearing the grievance must complete and attach a separate Statement of Decisions related to Grievance Form to the Student Grievance Statement. The copy is submitted to the Admissions and Records Associate to be placed in the student grievance file.

If the grievance is not resolved with the individual(s) involved, the student should discuss and attempt to resolve the issue within 10 school days with the next person following the CON organizational chart.

If the grievance is not resolved at the last available level with exclusion of the Dean, the next step is the College of Nursing Student Special Appeals Board. Action must be taken in 10 school days. (See the Student Special Appeals Policy.)

DISPOSITION OF GRIEVANCE MATERIALS

The last faculty, committee, or administrative person hearing the grievance shall keep the original Student Grievance Statement and the Statement of Decisions Related to Grievance forms that have been completed by other faculty, committee, or administrators hearing the grievance. These shall be sealed and placed in the student grievance file in the Admissions and Records Office of the College of Nursing. Other copies of the grievance shall be destroyed by the Admissions and Records Associate upon completion of the grievance process. Only the Dean and/or the student can open the sealed envelope. The student shall inform the Admissions and Records Associate in writing prior to graduation if they do not want the file to be destroyed. Otherwise, the grievance file shall be destroyed upon graduation.

If a student withdraws a grievance without completing the process, all related records will be destroyed.

* School day is defined as any day Monday through Friday in which University classes are scheduled to meet.

</tr>
<tr>
<td></td>
<td>2. Overall GPA drops below the required average (2.50) at the end of any semester. The student is on probation until one semester of additional course work has been completed. If the student has not attained or surpassed a 2.5 overall GPA at the end of the probationary period, that student will be dismissed.</td>
<td>A. Failure to achieve a minimum of “C” in two different nursing courses.</td>
</tr>
</tbody>
</table>

2. Recommendation for dismissal for a course related issue may be made to the Dean by the Department Chair after meeting/s to resolve the issue have been held at the Department level. |

3. Students who wish to challenge the dismissal decision may request a hearing of the College of nursing Student Appeals Board. (See Student Appeals Board Policy and Procedure). |

4. Once dismissed from the nursing program, the student must wait for one complete fall or spring semester before re-entering nursing courses. The student must reapply for admission. The nursing program admission policy controls the policy to be used for readmission. Readmission is determined by the Student Concerns Committee on an individual basis and space available. If readmitted, the student will be on permanent probation.
PROTOCOL FOR HOLDING HEARING OF STUDENT SPECIAL APPEALS BOARD Policy 237b

1. Record those present:
   A. Committee Members
   B. Involved Parties
   C. Others

2. Hearing will be closed unless involved parties previously agree to an open meeting.

3. The Chair will state purpose of meeting.

The purpose of this meeting is to hear an appeal of a grievance decision or notification of dismissal under the Clinical Dismissal Policy. This appeal has been brought by ________________(name), a student in the ____________________________ (college). He/she is appealing ____________________________ (state appeal, including date/semester of occurrence).

4. For the record, the Chair will state what materials have been distributed prior to this meeting and at the meeting for the committee's review and discussion.

5. The Chair will read the guidelines that will be followed at this meeting that come from the most current Code of Student Life.

6. The Chair will state the meeting format:

   A. The first part of the meeting is to obtain information on the related factors and aspects of the appeal. It is an informal yet objective process. This is not a disciplinary hearing, legal proceeding, nor courtroom process.

      1. The student will present his/her perspective.
      2. The faculty member, committee or administrator will present his/her perspective.

      Neither the student, involved parties, or other representatives/advisors will have the right to question the other.

   B. The committee members then will be allowed to ask questions of all parties in its attempt to achieve an understanding of the issue(s).

   C. Deliberation: All except the committee members will be excused. There is the option, however, for any of the involved parties to remain during the committee's deliberations. At that point, however, continuing participation on the part of the involved parties is not allowed. The committee will then deliberate and render a decision. The student and the other involved parties will then be notified in writing of the decision within a reasonable length of time (optionally not to exceed 5 school days).

A copy of the Committee's decision will be sent to the originator of the appeal, the Dean or dean's designee, and those against whom the appeal originated. The dean's designee (if appropriate) will inform the Dean of action taken. The original appeal statement and final decision shall be submitted to the Admissions and Record Associate to be placed in a sealed envelope in a special appeals file.
POLICY:

Students have the right to appeal an unresolved academic grievance or dismissal. Specific appeal procedures are detailed in the UND College of Nursing Student Appeals Board Procedures.

PURPOSES:

The Student Appeals Board shall be established for the purpose of hearing appeals from students who have an unresolved academic grievance or who request to appeal a notification of dismissal.

Note: Student appeal must be initiated within 10 school days.*

COMPOSITION AND RESPONSIBILITIES:

The Student Appeals Board shall be appointed by the appropriate Associate Dean for each appeal, and shall be composed of three full-time faculty members and two students. A staff secretary will also be appointed. Student Appeals Board members may be appointed to hear student appeals throughout the calendar year. Members are responsible for reviewing all aspects related to an appeal, including all pertinent College of Nursing policies and materials submitted by student(s) and faculty committee or administration.

Student Appeals Board appointees who have a conflict of interest, with the particular student or appeal, may not participate in that appeal. The Associate Dean may relieve an appointee should it be shown to the Associate Dean’s satisfaction that a conflict of interest exists. In the event this should occur, the Associate Dean will appoint a new member.

*School day is defined as any day Monday through Friday in which University classes are scheduled to meet.

STUDENT SPECIAL APPEALS BOARD PROCEDURE

Student Responsibilities:

1. Any student who appeals a dismissal or an unresolved grievance must first meet with the appropriate Associate Dean.

2. Submit a written narrative statement of the appeal to the appropriate Associate Dean this initiates the appeal process. This must be done within 10 school days after receipt of the unresolved grievance decision or dismissal.

3. May request a change of one member of the Board if cause is shown. This must be done within two days of notification of the Board composition.
4. The student may request, from the Student Appeals Board chairperson, to be present at the time the Student Appeals Board acts on the appeal. The student may be accompanied by one individual to act as a representative/advisor during the Appeals Board meeting. (See Protocol for Holding Hearings.)

5. Advance the appeal to the Dean of the College of Nursing if it is not resolved by the Student Appeals Board.

**Appeals Board Responsibilities**

1. Schedule to hear the appeal and make a decision no later than seven school days after final Board composition is achieved.

2. Request other relevant information as needed and request the presence of other relevant parties at the appeal proceedings.

3. Notify the student appealing and other individuals involved of the names of personal representatives/advisors to be present plus the date, time, and place that the appeal will be acted on. The chairperson shall send the letter by certified mail, return receipt requested, to the student appealing.

4. The staff secretary will keep complete and accurate records of the proceedings. The proceeding will be tape recorded to assist the secretary in keeping accurate records.

5. The typed records shall be read, approved, and signed by all faculty members of the Board hearing the appeal. A copy will be given to the appropriate Associate Dean. Submit the original appeal, tape recording, written record of the proceedings and decision of the Appeals Board to the Admissions and Records Associate to be placed in a sealed envelope in an appeals file.

6. Send a copy of their decision to the student involved by certified mail, return receipt requested.

7. Send a copy of appeal and final decision to the person, committee, or administrator with whom the original appeal was filed. Any recommendations for follow-up of the decision are to be forwarded to the responsible party for action, monitored by the appropriate Associate Dean.

**Dean or Dean's Designee Responsibilities**

1. Meet with the student who wishes to appeal. Counsel the student on the appeal process and procedure which will occur.

2. Receive the appeal from the student.

3. Inform the student of the composition of the Board in writing within five days or as soon thereafter as is reasonable.

4. Receive the request for an alternate to serve in place of a Board member from the student, if appropriate.

5. Appoint new member to the Board, if cause is shown.
6. Forward the appeal to the Board and send a copy to the Dean, if appropriate.

7. Receive the written record of the proceedings and actions taken by the Board.

8. Inform the Dean of the action taken.

9. When the entire appeal process is complete, the records are placed in a sealed envelope in the appeals file until graduation. These recommendations are monitored for implementation.

**Disposition of Special Appeals Materials**

Only the Dean and/or the student can open the sealed envelope. The student will inform the Admission and Records Associate in writing prior to graduation if they do not wish the appeals file destroyed. Otherwise, the Appeals file shall be destroyed upon graduation.

If the appeal is not resolved at the college level, any of the parties in the appeal may request a review by the Student Academic Standards Committee of the University. (See Code of Student Life, Academic Concerns.)
RN/BSN or RN/MS OPTION

ADMISSION POLICY (RN/BSN OPTION or undergraduate portion of RN-MS)   Policy 215

Effective for RN-BSN and RN-MS admissions to fall 2007 and later.

Admission to the College of Nursing is open to all licensed RN’s from either a diploma program or a regionally accredited Associate Degree program. RN/MS applicants must have an associate degree. An RN/BSN admission form may be submitted any time to be reviewed at the next meeting of the Undergraduate Nursing Student Concern’s Committee provided all necessary information is available. Because of the additional clinical fee required by the College of Nursing, it is advisable, but not required, that students complete most if not all general education courses before applying to the College of Nursing. The following criteria must be met to be accepted to the RN/BSN option (variations for RN/MS in parentheses):

1) Admitted to the University of North Dakota.

2) A completed application to the College of Nursing.

3) Minimum 2.5 GPA in all previous college work, and UND courses (3.00 for RN-MS).

4) Submission of copy of a current, unencumbered RN license.

5) Completion of the following courses with a grade of “C” or better (exceptions can be made on an individual basis).
   - English Composition 110 and 120 or 125
   - Introduction to Psychology
   - Introduction to Sociology, Social Problems, or Cultural Anthropology
   - Developmental Psychology
   - Anatomy
   - Physiology
   - General Nutrition
   - Statistics
   - Microbiology
   - Pharmacology (RN-BSN only)

Students will be notified by mail of their acceptance.

Some states or agencies require background checks or drug testing on students before they can participate in clinical experiences. The College of Nursing reserves the right to require background checks on students at any time. If the result of the check renders the student ineligible to complete the nursing courses, the student may be subject to dismissal from the program.

Admissions will continue each academic year until part time equivalency (PTE) spots are filled.

RN students who are applying for admission into the Nursing program should contact their advisor to discuss placement in the Public Health Nursing course and to determine if clinical placement is possible in your home
Course placement is on a first come – first serve basis and students will be asked to commit to their clinical experience several months in advance.

**RN/BSN OPTION NURSING CURRICULUM SEQUENCE**

This sequence reflects the nursing coursework remaining for most RN/BSN option students after transfer of A.D. nursing credit or with escrowed diploma nursing credit. Thirty semester credits of UND nursing coursework are required. Other Essential Studies and required non-nursing courses must be scheduled as necessary to meet graduation requirements. All support courses and challenge exams must typically be completed prior to beginning nursing courses.

**FALL SEMESTER**

- Nurs 282 Health Promotion 2 cr.
- Nurs 302 Pathophysiology 3 cr.
- Nurs 350 Nursing in Transition 3 cr.

**SPRING SEMESTER**

- Nurs 326 Research Evidence for Pract. 2 cr.
- Nurs 490 Transcultural Health Care 3 cr.
- Nurs 474 Professional Development II 5 cr.

**SUMMER TERM**

- Nurs 324 Public Health Nursing 2 cr.
- Nurs 374 Public Health Nursing Clinical 2 cr.

**ELECTIVE NURSING COURSES**

A minimum of eight credits are to be chosen from the courses listed below. Those available from a distance are in bold.

- Nurs 284 Functional Changes in Aging 1 cr.
- Nurs 405 Nursing Informatics 3 cr.
- Nurs 306 Palliative Care 2 cr.
- Nurs 322 Nursing Care of Diverse Families 3 cr.
- Nurs 394 Independent Study 1-10 cr. (May include clinical)
- Nurs 400 Special Topics 2-3 cr.
- Nurs 418 Physical Changes in Aging 3 cr.
- Nurs 473 Multisystem Complex AH 4 cr. (2 theory/2 clinical)
- Nurs 425 Nursing Practicum Theory 2 cr.
- Nurs 475 Nursing Practicum Clinical 1-4 cr.
- Nurs 489 Senior Honors 6-15 cr. (may include clinical)
- Nurs 501 Complementary Therapies 3 cr.
- Nurs 420 Interprofessional Health Care 1 cr.
- Nurs 476 Complex Child Bearing Family 2 cr. (1.5 theory/1.5 clinical)
1) Credit for nursing courses may be established by direct transfer for the graduate of a regionally accredited A.D. program or through evaluation by the College of Nursing. Graduates from diploma programs will have all transferred nursing credits held in escrow until they have successfully completed 6 credits in nursing at UND, including the Nursing in Transition course (diploma program graduates will receive 30 credits). All RN students are required to take the Nursing in Transition courses.

2) College of Nursing students who are graduates of associate degree or diploma schools of nursing may wear a name pin with "R.N." following their name and may sign "R.N." after their name when in a clinical site if they are currently licensed in the state of the clinical site.

3) With advisement, registered nurse students enrolled in the College of Nursing may be permitted to challenge nursing courses prior to the completion of prerequisite support courses.

4) Should a RN's license become encumbered, suspended, or revoked while enrolled in the College of Nursing, that student may be barred from clinical nursing courses contingent upon the nature of the encumbrance and College of Nursing resources to supervise these students. It is the student's responsibility to inform the college of Nursing of any change in the state of their license. Those who do not will be subject to disciplinary action.

5) A criminal background check is required annually. Drug testing may be required of students at any time and any resulting information could make them ineligible for completion of clinical nursing courses. This could mean a dismissal from the College of Nursing.
1. Registered Nurses (RNs) and Licensed Practical Nurses (LPNs) applying to the College of Nursing must have a current license in good standing.

2. All RN and LPN students must provide proof of current licensure to the College of Nursing upon admission and annually by every January 15th.
   
   a. LPN & RN-to-BSN students must provide verification of continued unencumbered licensure to the Admissions, Records and Advising Associate by January 15th of each year.
   
   b. RN-to MS students must provide verification of continued unencumbered licensure each year by January 15th to the Graduate Student Services Specialist.

3. It is the student’s responsibility to inform the College of Nursing of any change in the status of her/his license by submitting a copy of the Board Order to the appropriate Associate Dean. Those students who do not will be subject to disciplinary action.

4. Should an individual’s RN or LPN license become encumbered, suspended, or revoked while enrolled in the College of Nursing, that student may be barred from clinical nursing courses contingent upon the nature of the encumbrance and College of Nursing resources to supervise these students.

5. The appropriate Associate Dean will inform the appropriate Department Chairperson of the change in license status of the student. The Department Chairperson will determine, in consultation with the Associate Dean and appropriate faculty, whether or not the student may enroll, or continue enrollment in a clinical course.
